# Ambetter Health of Pennsylvania, Inc. – Individual Plans

Rate request filing ID # CECO-134506033 – This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at https://www.insurance.pa.gov/Consumers/HealthInsuranceFilings/Pages/ACA-Health-Rate-Filings.aspx

## Overview

| | |
|---|---|
| Initial request average rate change: | 30.08% |
| Revised requested average rate change:[1] | 30.08% |
| Range of requested: | 4.85% to 45.55% |
| Effective date: | January 1, 2026 |
| Mapped members: | 60,055 |
| Available in: | Rating Areas 1, 2, 3, 4, 5, 6, 7, 8, and 9 |

## Key Information

**Jan. 2024 – Dec. 2024 financial experience**

| | |
|---|---|
| Premiums | $166,627,452 |
| Claims | $133,279,834 |
| Administrative Expenses | $26,294,724 |
| Taxes & Fees | $11,512,868 |
| Insurer made (after taxes) | $-4,459,973 |

**How insurer plans to spend your premium**

This is how the insurance company plans to spend the premium it collects in 2026

| | |
|---|---|
| Claims: | 81% |
| Administrative: | 13% |
| Taxes & Fees: | 4% |
| Profit: | 2% |

The insurer expects its annual medical costs to increase 11.1%.

## Explanation of Requested Rate Change:

Factors such as cost of care, taxes, utilization of health services, proposed changes in benefits, and anticipated changes in morbidity in relation to the single risk pool all contribute to the 2026 rate change.

[1] Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

May 15, 2025

**RE: ACTUARIAL MEMORANDUM – PENNSYLVANIA –AMBETTER HEALTH –
INDIVIDUAL RATE FILING, EFFECTIVE JANUARY 1, 2026**

This filing includes Ambetter Health's Individual Market rates and supporting documentation for rates effective January 1, 2026.

**REQUESTED COMPANY INFORMATION**

Below you may find the requested company information, in response to the guidance posted April 10th, 2025.

1. Company Name & NAIC number: **Ambetter Health; NAIC# 16041**
2. Market (Individual or Small Group): **Individual**
3. On/Off or Off Exchange: **On/Off Exchange**
4. Effective date of coverage: **January 1, 2026**
5. Average rate change requested (Table 11, cell AN13 for annual filings; Table 11, cell EN19 for small group quarterly filings): **30.1%**
6. Range of rate change requested (Table 11, column AN for annual filings; Table 11, columns BU, DB, and EI for small group quarterly filings): **13.1% to 38.3%**
7. Total additional annual revenue generated from the proposed rate change: **$116,534,356**
8. Product(s) (Indemnity, HMO, POS (HMOs only), PPO, or EPO): **HMO**
9. Rating Areas and any changes from 2025: **In 2025 plans were offered in Rating Areas 1, 2, 3, 4, 5, 6, 7, and 8. For 2026, plans will be offered in Rating Areas 1, 2, 3, 4, 5, 6, 7, 8, and 9.**
10. Metal Levels and Catastrophic Plans: **Gold, Silver, Bronze**
11. Current number of covered lives and of policyholders as of February 1, 2025, as shown in cell V15 of Table 10: **Covered lives – 60,055; Policyholders – 46,268**
12. Number of plans offered in 2026 and the change this represents from 2025: **There are 17 plans offered in 2026. There were 23 plans offered in 2025.**
13. Corresponding contract form number, SERFF and Binder ID numbers: **FORM: CECO-134506033; SERFF: CECO-134506033; Binder: CECO-PA26-125120068**
14. HIOS ID number: **HIOS Issuer ID number: 15983 Submission tracking number: Submitted in SERFF**

# Pennsylvania Actuarial Memorandum

Redacted
Ambetter Health
Annual Individual Health Rate Filing
Pennsylvania
Assuming Enhanced Advance Premium Tax Credits (eAPTCs) Have Expired
And CSR Subsidies Are Unfunded
Effective January 1, 2026
Forms: 15983PA001, 15983PA002, 15983PA003

# Contents

1. Basic Information and Data . . . . . 3
2. Rate Development and Change . . . . . 9
3. Plan Rate Development . . . . . 19
4. Plan Premium Development for 21-Year Old Non-Tobacco Use . . . . . 20
5. Plan Factors . . . . . 21
6. Actuarial Certification . . . . . 22

# 1. Basic Information and Data

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Actuarial Memorandum Rate Exhibits. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department and their subcontractors to assist in the review of Ambetter Health's individual rate filing. However, we recognize that this certification may become a public document.

The premium rates developed and supported by this Actuarial Memorandum assume that federal cost-sharing reduction (CSR) subsidies will remain non-funded in plan-year 2026. This actuarial memorandum reflects the estimated impact of the Section 1332 State Relief and Empowerment Waiver for benefit year 2026. Future modifications to the operation and parameters of the State Relief and Empowerment Waiver, as well as to legislation, appropriations and/or court decisions regarding the funding of CSR payments may affect the extent to which the premium rates are neither excessive nor deficient.

As instructed by Ambetter Health, the premium rates developed and supported by this Actuarial Memorandum are based on legislative and regulatory provisions in effect at the time of preparation or otherwise scheduled by law or regulation to take effect in plan-year 2026. These provisions assume that enhanced Advanced Premium Tax Credits (eAPTCs), as provisioned under the Inflation Reduction Act, expire on December 31, 2025. Changes to these and other provisions that impact 2026 may affect the extent to which the premium rates are sufficient and neither excessive nor deficient. Ambetter Health reserves the right to file revised rates in the event of changes to the regulatory environment in which they were developed to ensure rates are appropriate.

These rates assume that CMS' Marketplace Integrity and Affordability rule, published in the Federal Register on March 19, 2025, is finalized as proposed - including key rule changes regarding open enrollment, special enrollment periods, and annual eligibility requirements. Rates also reflect benefit designs and cost-sharing structures aligned with the revised de minimis actuarial value (AV) ranges specified in the proposed rule for the 2026 plan year.

B. RATE HISTORY AND PROPOSED VARIATION IN RATE CHANGES

The 3 year historical rate changes are:

| Year | SERFF Filing # | Rate Change |
|---|---|---|
| 2024 | CECO-133651416 | 2.3% |
| 2025 | CECO-134068773 | 1.9% |
| 2026 | CECO-134506033 | 30.1% |

The rate projections for 2026 have been updated from the previous year's projections to reflect the most recent assumptions and information available.

The following describes and quantifies the significant drivers underlying the proposed rate change for 2026. This breakdown is intended only for explanatory purposes and is distinct from the development of rates, as described in the subsequent sections of this memorandum.

- Single Risk Pool Experience and Morbidity (16.9% premium impact versus 2025 filed rates)

The individual single risk pool experience underlying the rate projections has been updated. The current model reflects the projected utilization trend applied to adjusted experience (from 2024 to 2026), including anticipated changes in the average morbidity of the single risk pool. There is a full description of utilization trend and other projection factors applied to experience in Section 6, "Trend Factors".

Risk adjustment transfer experience for 2026 includes consideration of changes to the statewide average premium, the Risk Adjustment program, and Ambetter Health enrollee population morbidity relative to the Pennsylvania single risk pool.

- Unit Cost trend (7.6% premium impact versus 2025 filed rates)

  Unit costs and provider reimbursement agreements have been updated to reflect changes in the rating year.

- Benefit Design and CSR Subsidies (-11.8% to 6.2% premium impact versus 2025 filed rates, varies by plan)

  Ambetter Health's 2026 rates assume no change in covered EHB or non-EHB benefits relative to benefits offered in 2025. The rates do reflect updated projections of actuarial value and cost sharing by plan. Premium rates continue to reflect the expectation that Ambetter Health will not be reimbursed by the U.S. Department of Health and Human Services (HHS) for cost-sharing on CSR Silver plans.

- Administrative Expenses and Profit (1.7% premium impact versus 2025 filed rates)

  See Section 2b, "Retention Items", for details on projected non-benefit expenses.

- Other

  These components include capitation contracts, changes in the 1332 program, and interactions between prior steps.

As shown in Table 10, "Plan Rates", the rate change varies by plan. The variance in the rate changes across plans does not reflect the incorporation of plan-specific morbidity. When projecting plan rating factors, we have assumed the same demographic and risk characteristics for each plan priced. This pricing method excludes expected differences in the morbidity of members assumed to select the plan. Additional discussion of how the actuarial value of each plan is determined can be found in Section 2, "Rate Development & Change", which further addresses how rate changes can vary by plan under a single risk pool methodology.

C. AVERAGE RATE CHANGE

The average rate change in 21-year-old non-tobacco premium PMPM is 30.1%, as shown in Table 11, "Plan Premium Development for 21-Year-Old Non-Tobacco User". The average rate change is 27.4%, as shown in Table 10, "Plan Rates".

D. MEMBERSHIP COUNT

Please see Table 1, "Number of Members" for the average age, age breakdown, and total number of members for the projection period.

E. BENEFIT CHANGES

Ambetter Health's 2026 rates assume no change in covered EHB or non-EHB benefits relative to benefits offered in 2025. The rates do reflect updated projections of actuarial value and cost sharing by plan, as described in "Plan Adjusted Index Rate" subsection in Section 2a. The premium rates developed and supported by this Actuarial Memorandum assume that federal cost-sharing reduction (CSR) subsidies will remain non-funded in plan-year 2026.

Please see Appendix 20.5 for details on benefit changes.

The names of all plans are changing effective 1/1/2026.

F. EXPERIENCE PERIOD CLAIMS AND PREMIUMS

The following information supports the best estimate of premium and claims for the single risk pool during the experience period, as reported in Worksheet 1, Section I and Worksheet 2, Section II of the URRT. The experience period for this rate filing is calendar year 2024.

**Paid Through Date: 3/31/2025 Current Date: March 2025**

Earned premium in the experience period is not adjusted for taxes, assessments, risk adjustment receivables or payables or MLR rebates.

**Allowed and Incurred Claims Incurred During the Experience Period**

A breakout of the claims shown in Worksheet 1, Section I is provided in the appendices as Appendix 4.1.

Allowed and incurred claims, as defined by the URRT instructions, were determined from Ambetter Health's claim record system. Incurred but not paid amounts were estimated using a combination, as appropriate, of the loss ratio and completion methodologies. The estimation for incurred but not paid amounts is based on the experience period claims reported. This estimation was performed using a consistent methodology for both allowed and paid claims. Differences in effective completion factors for allowed versus paid claims are attributable to differences in the seasonal patterns of allowed versus paid claims. Actual claims run-out may reflect some variability from expectations.

Incurred claims are defined as allowed claims less member cost-sharing, Section 1332 Waiver reinsurance and cost-sharing paid by the U.S. Department of Health and Human Services (HHS) on behalf of low-income members. Cost-sharing paid by HHS will be zero for 2026 under their current guidance.

**Experience Period Non-EHBs**

The benefits in excess of EHBs offered are adult vision and adult dental coverage. The experience period cost for these benefits is shown in Table 2.

**Capitation**

In 2024, children were capitated at $3.34 PMPM for Envolve Vision (Exam & Hardware, Medical & Surgical), Vida (Health Coaching), Envolve People Care (NurseLine), Startsmart, and Teledoc - Telehealth. Adults on the base product were capitated at $1.16 PMPM. Adults were lower since Envolve Vision (Exam & Hardware) is not included in the base product. Adults with the Vision+Dental buy-up were capitated an additional $20.19 PMPM for Envolve Vision (Exam & Hardware) and Envolve Dental. The dates for the contract were CY 2024.

**Treatment of Pharmacy Rebates on Incurred Claims**

Incurred claims in Table 2 have been adjusted to be gross of pharmacy rebates, as opposed to net, shown on Worksheet 1 of the URRT.

**Experience Period Risk Adjustment and Reinsurance Adjustments PMPM**
The risk adjustment transfer and state-based reinsurance receivables for the experience period is shown on Worksheet 1, Section I of the URRT. The final amount for risk adjustment was not known at the time of rate development. This amount was estimated using data available through March 2025. There were no federal reinsurance recoveries in 2024.

**Current Enrollment and Premium**
The current enrollment and premium values on Worksheet 2, Section II are reported as of March 2025.

**Loss Ratio**
The loss ratio calculated in Table 2, "Experience Period Claims and Premiums" for the experience period data is 79.99%.

G. CREDIBILITY OF DATA
**Description of Credibility Method Used** Credibility is first calculated using the following formula:

| | |
|---|---|
| If Member Months < 12,000: | 0% |
| If 12,000 < Member Months < 125,000: | $\left(\frac{\text{Member Months}}{125000}\right)^{0.5}$ |
| If Member Months > 125,000: | 100% |

Here, "Member Months" is defined as total 2024 member months across Ambetter Health's calendar year 2024 individual block of business that are suitable for pricing.

**Total 2024 Member Months: 379,562**
**Credibility Level Assigned To Base Period Experience: 100%**

Note that credibility is calculated based on 2024 experience data that is suitable for pricing and may not exactly match the total 2024 member months shown above.

Actuarial Standard of Practice #25 "Credibility Procedures" was considered when determining the credibility level.

**Manual Experience Basis**
This filing is 100% experience rated. No credibility manual rate is being filed for 2026.

Where manual adjustments to claims are required to model changes in Ambetter Health's population and coverage over time, most notably utilization trend as discussed in section 2, these adjustments are based on the Milliman Managed Care Rating Model (MCRM) and the companion Milliman Health Cost Guidelines (HCGs), and consideration of relevant QHP experience in other states.

The HCGs provide a flexible but consistent basis for the determination of claim costs for a wide variety of health benefit plans. These rating structures are used to anticipate future claim levels, evaluate past experience, and establish interrelationships between different health coverage levels.

The Milliman HCGs are developed as a result of Milliman's continuing research on health care costs. They were first developed in 1954 and have been updated and expanded annually since then. These

guidelines are continually monitored as they use them in measuring the experience or evaluating the rates of their clients and as they compare them to other data sources.

The HCGs are a cooperative effort of all Milliman health actuaries and represent a combination of their experience, research, and judgment. An extensive amount of data is used in developing these guidelines including published and unpublished data. In most instances, cost assumptions are based on their evaluation of several data sources and, therefore, are not specifically attributable to a single source. Since these guidelines are a proprietary document of Milliman, they are only available for release to specific clients that lease these guidelines and to Milliman consulting health actuaries.

H. TREND IDENTIFICATION Please see Table 3, "Trend Components" for the medical and prescription drug allowed claims cost and utilization trends as well as the induced demand adjustments.

This section demonstrates and describes the methodology for developing the trend factors used to project the 2024 experience period Essential Health Benefit (EHB) allowed claims to the 2026 projection period as shown in Worksheet 1, Section II of the URRT. The cost and utilization trend factors for "Year 1" and "Year 2" shown on the URRT are annual trends; the factors for "Year 1" represent 12 months of trend from 2024 to 2025 and the factors for "Year 2" represent 12 months of trend from 2025 to 2026.

**Trend Factors (URRT Cost Trend and URRT Utilization Trend Projection Factors)**
The cost trend factors reflect the following:

- Changes in contractual reimbursement and discounts between the experience and projection periods for a fixed basket of services. This is for providers that were already part of the network in 2024, based on actual 2024 contracts and ongoing provider and Pharmacy Benefit Manager (PBM) contracting efforts for 2026, controlling for changes in service mix, the geographic distribution of enrollees, and pharmacy rebates.
- Changes in the distribution of services among network providers other than changes driven by expanding the provider network (there were no other significant network changes from 2024 to 2026).
- Average charge trend between the experience and projection periods normalized for demographics, morbidity, and benefit design.

Appendix 6.1 decomposes the cost trend factor into its constituent parts.

The utilization trend factors reflect the following:

- Assumed changes in the mix or intensity of services provided for a fixed level of illness burden.
- Secular utilization trend, normalized for demographics, morbidity, and benefit design, informed by consideration of multiple sources, including typical industry trend assumptions, the Milliman Health Cost Guidelines, and analysis of observed historical trends for Ambetter products.

Appendix 6.2 compares the utilization trend factor by benefit category to various industry trends.

I. HISTORICAL EXPERIENCE

Please see Table 4, “Historical Experience” for the most recent 48 months of data with at least two months of runout. See Section 1h above for a description of the trend development.

## 2. Rate Development and Change

A. DEVELOPMENT OF PROJECTED INDEX RATE, MARKET-ADJUSTED INDEX RATE, AND TOTAL ALLOWED CLAIMS

Please see Table 5 for the development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims. The paid to allowed ratio shown in cell C28 is calculated using an alternative method as allowed by the rate filing guidance. The ratio is calculated as follows:

$$Paid\ to\ Allowed\ Ratio = \frac{URRT\ WS2\ Projected\ Incurred\ Claims + URRT\ WS2\ Projected\ Reinsurance}{URRT\ WS2\ Allowed\ Claims}$$

**Development of Manual EHB Allowed Claims PMPM**
This filing is 100% experience rated for 2026.

**Adjustments to Trended EHB Allowed Claims PMPM**
This section describes and supports the adjustments other than trend used to project the 2024 experience period Essential Health Benefit (EHB) allowed claims to the 2026 projection period as shown in Worksheet 1, Section II of the URRT. Each factor represents the change between the experience period and projection period. The factors, therefore, are not annualized values.

Differences between the URRT adjustment factors and the adjustments shown in Table 5 are due to the order in which they are applied. Appendix 20.4 decomposes each adjustment factor into its components by service category for both Table 5 and the URRT.

**Morbidity Adjustment**
Claims were adjusted for estimated differences in morbidity between Ambetter Health's 2024 membership (379,562) and its projected 2026 membership (530,046).

The components of the morbidity projection factor are:

- An adjustment for potential changes in the health status profile of the statewide single risk pool from 2024 to 2026.
- An adjustment for potential changes in the relative health status of Ambetter Health's membership compared to the statewide single risk pool from 2024 to 2026.

Consistent with the 2026 URR Instructions, these morbidity adjustments reflect the component of the change in average allowed claims PMPM holding constant the experience period population's demographics (e.g. age, gender, and region), product mix, and all provider network contracts and time parameters.

The relative morbidity assumption used for projecting claims reflects Ambetter Health's expectations regarding the morbidity of its 2026 membership relative to the single risk pool, and is consistent with the relative morbidity assumption used to estimate Ambetter Health's risk transfer payment/receivable.

**Demographic Shift**
Experience period claims were adjusted for differences in the projected mix of 2026 membership by gender and age band using demographic factors from the Milliman Health Cost Guidelines.

Experience period claims were also adjusted for differences in the projected mix of 2026 membership by metropolitan statistical area (MSA) using utilization and unit cost area factors from the Milliman Health Cost Guidelines and differences in contractual reimbursement by area.

**Plan Design Changes**
Experience period claims were adjusted for changes in plan mix and plan design.

This adjustment factor reflects anticipated changes in the demand for services due to differences in product mix and cost-sharing requirements from the experience period to the projection period. Population demographics and morbidity were held constant across plan designs for this adjustment to avoid confounding with demographic and morbidity shifts.

Where applicable, this factor is also used to reflect addition or removal of covered benefits to align the 2026 projection with benefits covered by the state EHB benchmark plan:

- No such benefit change adjustments were required from 2024 to 2026.

**Impact of eAPTC Expiration**
To account for eAPTC expiration prior to the 2026 benefit year, we have assumed rates will increase due to anticipated reductions in enrollment, both at the issuer and single risk pool level. As eAPTCs expire and enrollees subsequently face increased out-of-pocket premiums, we assume healthier individuals who tend to be more price sensitive will leave the market, worsening the average morbidity of the individual risk pool.

If enhanced subsidies were extended, the key assumption changes to pricing year 2026 would be to:

- Experience Development, Morbidity, and Risk Adjustment
- Non-benefit expenses

For Additional support of the rating impact of eAPTC expiration, please refer to Appendix 1.5.

**Other Adjustments**
Experience period claims were also adjusted for the following changes between the experience period and projection period:

- Anticipated changes in capitation contracts.
- Changes in pharmacy rebates and dispensing fees between the experience and projection periods developed based on changes to PBM contracting from 2024 to 2026 and projected drug utilization.
- Expected savings due to ongoing managed care efforts.
- The reimbursement impact of expanding the provider network from 2024 to 2026 (developed using estimates of the distribution of services and relative unit costs by provider). This only reflects the impact of new providers; the impact of changes in the distribution of services among existing network providers is reflected in unit cost trend.
- Adjustment for expected claims costs without corresponding premium revenue, due to ACA grace period provisions.

**Projected Index Rate**

The Index Rate for the Experience Period (calendar year 2024) is a measurement of the average allowed claims PMPM for EHB benefits. This value ($436.05) is located on Worksheet 1, Section II of the URRT. The Index Rate for the Experience Period reflects the actual mixture of smoker/non-smoker population, area factors, plan enrollment, and the actual mixture of risk morbidity in the single risk pool during the experience period. The Index Rate for the Experience Period has not been adjusted for payments and charges under the risk adjustment and reinsurance programs or for Exchange user fees. We have adjusted the Index Rate for the Experience Period to remove any non-EHBs. The claim system does not currently distinguish between EHB and non-EHB claims, so this adjustment was made based on the expected percentage of non-EHB claims for the experience period. The experience period did not contain non-single risk pool claims, so no adjustment was made for this.

The Index Rate for the Projection Period ($551.99) is reflected in Worksheet 1, Section II of the URRT. It was developed following the specifications of 45 CFR part 156.80(d)(1). The Index Rate for the Projection Period represents the estimated total combined projected allowed claims PMPM for EHBs for calendar year 2026 and has not been adjusted for payments and charges under the risk adjustment program or for Exchange user fees. The total allowed claims include benefits in excess of EHBs (coverage for adult vision and adult dental). The Index Rate for the Projection Period was calculated based on the methodology discussed in Section 2a. The Index Rate for the Projection Period will remain unchanged until a renewal filing effective January 1, 2027.

The development of the Index Rate for the Projection Period is shown in Worksheet 1, Section II. This reflects:

- The projection period of calendar year 2026
- The anticipated claim level of the projection period with respect to trend, benefits, and demographics
- The experience of all policies expected to be in the single risk pool (with necessary adjustments)

Appendix 10.1 and Table 5 demonstrate the calculation of the Projected Index Rate by blending the Experience Period Index Rate with the Credibility Manual Index Rate, as applicable. The next two sections further describe the steps taken to develop the Market-Wide Adjusted Index Rate and Plan Adjusted Index Rates.

**Market-Adjusted Index Rate**

The Index Rate for the Projection Period is adjusted to arrive at the Market-Wide Adjusted Index Rate ($689.41) based on the following three adjustments, as outlined in 45 CFR 156.80(d)(1):

- Adjustment for Section 1332 State Relief and Empowerment Waiver (state-based reinsurance program)
- Adjustment for the Risk Adjustment Program
- Exchange user fee adjustment

Since the Index Rate is on an allowed claims basis, the market-level adjustments are applied on an

allowed basis. Similar to the Index Rate, the Market-Wide Adjusted Index Rate reflects the average demographic characteristics of the single risk pool. The Market-Wide Adjusted Index Rate is not calibrated. Appendix 11.1 and Table 5 show the development of the Market-Wide Adjusted Index Rate.

**Reinsurance**

No federal reinsurance recoveries are expected in the projection period. The reinsurance that was entered in the field for projected reinsurance on URRT Worksheet 1, Section II and Table 5 reflects a reduction in the index rate due to the Section 1332 State Relief and Empowerment Waiver. On Appendix 11.1, the reinsurance adjustment is shown on an allowed basis as a multiplicative factor, and this factor is 0.97.

Tabs II.a. and II.b. in the PAAM Exhibits show the impact of the reinsurance program in the individual market.

We used Ambetter Health's actual 2024 claims experience, including the distribution thereof by annual claims per member, scaled to anticipated 2026 costs levels, to model the proposed reinsurance scenario. The scaled claims probability distribution (CPD) reflects expectations regarding plan year 2026 population, plan, and network characteristics for purposes of calculating the projected incurred claims impact in the rating period.

We then applied the proposed coinsurance parameter to claims that fall within the reinsurance window to calculate the expected reinsurance receivable.

**Risk Adjustment Payment/Charge**

The Projected Risk Adjustment Transfer PMPM ([redacted]) is shown on Worksheet 1, Section II on an allowed basis. This amount does not include the 2023 Risk Adjustment User Fee of $0.20 PMPM (0.03% of premium). The Risk Adjustment User Fee is included with Taxes and Fees on Worksheet 2, line 3.7. Appendix 11.1 shows how the anticipated risk adjustment transfer revenue is applied to the Index Rate in the development of the Market-Wide Adjusted Index Rate. See Appendix 11.2 for the development of the Projected Risk Adjustment Transfer and Appendix 11.3 for the development of the multiplicative adjustment factor.

The state transfer calculation portion of the total risk adjustment transfer is based on the risk adjustment transfer formula, as provided in the Federal Register Volume 78 Number 47 and displayed below.

$$T_i = \left[\frac{(PLRS_i \times IDF_i \times GCF_i)}{\sum_i (s_i \times PLRS_i \times IDF_i \times GCF_i)} - \frac{(AV_i \times ARF_i \times IDF_i \times GCF_i)}{\sum_i (s_i \times AV_i \times ARF_i \times IDF_i \times GCF_i)}\right] \times \overline{P}_s$$

Where:

$\overline{P}_s =$ statewide average premium $\times$ 0.86 (to reflect the admin reduction adjustment);

$PLRS_i =$ plan $i$'s plan liability risk score;

$AV_i =$ plan $i$'s metal level AV;

$ARF_i =$ plan $i$'s allowable rating factor;

$IDF_i =$ plan $i$'s induced demand factor;

$GCF_i$ = plan $i$'s geographic cost factor;

$S_i$ = plan $i$'s share of state enrollment as measured in member months

and the denominator is summed across all plans in the risk pool in the market in the state.

We project the portfolio average for each factor in the risk adjustment transfer formula using a combination of (i) the state's actual historical risk adjustment factors adjusted to the projected population and (ii) adjustments for market and risk adjustment program changes. The resulting aggregate payment or receivable is then proportionally allocated to all plans in the portfolio.

For the purpose of our modeling, each of these factors was approximated as follows.

$\overline{P}_s$: The state average premium was assumed to be approximately [redacted] PMPM.

PLRS: The statewide average risk score is projected based on the average PLRS of the single risk pool in 2024, as reported by the U.S. Department of Health and Human Services (HHS), adjusted for projected changes in the demographics, morbidity, and plan mix of the single risk pool from 2024 to 2026.

The average risk score for Ambetter Health's membership is projected by adjusting the projected single risk pool average risk score for risk score differences associated with demographic, plan mix, and morbidity differences between the two populations.

HHS's proposed HCC model and coefficient changes for 2025 and 2026 were considered in the development of the projected risk adjustment transfer. The demographic, plan mix, and morbidity assumptions supporting the projected statewide and Ambetter Health risk score projections are consistent with the demographic, plan mix, and morbidity assumptions used to project claims costs.

IDF: The statewide average IDF is projected based on the average IDF of the single risk pool in 2024. For historical risk transfer data, we rely on a combination of the latest available HHS Summary Report on Permanent Risk Adjustment Transfers and when available, Wakely's National Risk Adjustment Report (WNRAR) for Pennsylvania.

The average IDF for Ambetter Health is projected by applying the induced demand factors from the market reform rule published in the March 11, 2013 Federal Register, page 15433, Table 11 to Ambetter Health's projected population. The formula recognizes the following IDF factors by metallic tier: Bronze 1.00, Silver 1.03, Gold 1.08 and Platinum 1.15.

AV: The statewide average actuarial value (AV) is projected based on the average metal level AV of the single risk pool in 2024. For historical risk transfer data, we rely on a combination of the latest available HHS Summary Report on Permanent Risk Adjustment Transfers and when available, Wakely's National Risk Adjustment Report (WNRAR) for Pennsylvania.

The average AV for Ambetter Health is projected by applying the metal level AV factors from the market reform rule published in the March 11, 2013 Federal Register, page 15433, Table 9 to Ambetter Health's projected population. The formula recognizes the following AV values by metallic tier: Bronze 0.60, Silver 0.70, Gold 0.80, and Platinum 0.90.

ARF: As stated in the March 11, 2013 Federal Register, page 15433, the allowable rating factor (ARF) adjustment accounts only for age rating.

The statewide average ARF is projected based on the average ARF of the single risk pool in 2024. For historical risk transfer data, we rely on a combination of the latest available HHS Summary Report on Permanent Risk Adjustment Transfers and when available, Wakely's National Risk Adjustment Report (WNRAR) for Pennsylvania, adjusted for projected changes in the demographics of the single risk pool from 2024 to 2026.

The average ARF for Ambetter Health is projected by applying the proposed 2026 HHS age rating factors to Ambetter Health's projected population. An equal distribution across ages within each age band was assumed.

GCF: The average GCF for Ambetter Health relative to the statewide average was modeled based on historical GCFs by rating area, any anticipated changes in these GCFs over time, and Ambetter Health's projected enrollment by rating area.

The total transfer is calculated as the sum of the state transfer calculation described above and a net transfer for 2026 attributable to the high cost risk pooling program. We modeled this as the combination of a receivable, based on the attachment point and coinsurance from the 2026 Notice of Benefit and Payment Parameters (NBPP), and an assessment, based as a percentage of premium.

Outliers were reflected in our calculations to the extent that outliers are reflected in historical risk scores used as the starting point of the 2025 risk transfer projection and via the calculation of the net high cost risk pooling receivable or payment. Otherwise, there were no "potential outlier assumptions" that would have an impact on transfers.

The projected transfer amount assumes no impact under the Risk Adjustment Data Validation (RADV) process.

The risk adjustment transfer amounts ([redacted]) shown on Worksheet 1 of the URRT are the actual PMPM amounts expected in the projection period on an allowed basis. The risk adjustment transfer amount applied to the Index Rate in the development of the Market-Wide Adjusted Index Rate is on an allowed claims basis, as the Index Rate is on an allowed claims basis.

The demographic, plan mix, and morbidity assumptions supporting the risk transfer projection are consistent with the demographic, plan mix, and morbidity assumptions used to project claims costs.

**Exchange User Fees**

The Exchange user fee adjustment applied to premium rates is 2.98% of premium. This is based on weighting the expected distribution of issuer enrollment sold through the Exchange and sold outside of the Exchange. Per the 2026 ACA-Compliant Health Insurance Rate Filing Guidance, the Exchange user fee is 2.98% of premium for members purchasing coverage via the Exchange, and there is no Exchange fee for members enrolling in coverage outside of the Exchange. We assumed 99.43% of members would enroll through the Exchange and 0.57% would enroll outside of the Exchange. On Appendix 11.1, the user fee is shown on an allowed basis as a multiplicative factor, and this factor is 1.037. See Appendix 11.3 for the development of this factor.

**Non-EHBs**

The non-EHB allowed claims shown in Table 5 are comprised of Adult Vision and Adult Dental benefits ($3.45).

**Plan-Adjusted Index Rate**

The Plan Adjusted Index Rates (average Plan Adjusted Index Rate: $684.98) are included in Worksheet 2, Section III of the URRT. The Plan Adjusted Index Rates are the Market-Wide Adjusted Index Rate adjusted for only the following allowable adjustments, where applicable, as outlined in 45 CFR 156.80(d)(2):

- The actuarial value and cost-sharing design of the plan
  - The actuarial value for each plan was developed using a claims simulation methodology with a large dataset of individual exchange data, calibrated to the expected population.
    - Under a claims simulation approach to modeling plan relativities, member-level claims are re-adjudicated using the cost sharing parameters of each plan design, thereby calculating plan versus patient liability.
    - Using the same dataset for plan rating factors ensures that a static demographic and risk profile informs the rating factor of each plan so that allowed relativities by plan solely reflect benefit design differences.
    - Rate increases can vary by plan under this methodology without reflecting morbidity differences. For example, rate increases naturally vary by plan over time as the relationship changes between cost sharing levels and the allowed costs to which they are applied (i.e., leveraging).
  - The actuarial and cost-sharing pricing adjustment reflects full plan liability for CSR subsidies. CSR costs are reflected as a uniform percentage load of 22.0% applied to each silver ACA-compliant plan sold through the Exchange.
  - Induced Demand for each plan is calculated according to the 2026 ACA-Compliant Health Insurance Rate Filing Guidance released by the Pennsylvania Insurance Department.
- The plan's provider network, delivery system characteristics, and utilization management adjustment practices.
  - Not applicable. All plans have the same provider network.
- Benefits provided under the plan that are in addition to the EHBs.
  - For a subset of plans, additional benefits include coverage for adult vision and adult dental.
- Administrative costs, excluding the Exchange user fees (which are already accounted for in the Market-Wide Adjusted Index Rate).
  - Non-benefit expenses ($88.06) are discussed in Section 2b below. Appendix 12.2 decomposes the administrative cost adjustment into its components.

There are no catastrophic plans being offered, so there is no eligibility adjustment made for catastrophic plan enrollment.

Administrative costs and other benefits (non-EHB) common to all plans are added to the Market-Wide Adjusted Index Rate. Then, factors for actuarial value and cost-sharing and non-EHBs by

plan are applied to reach the Plan Adjusted Index Rate for each plan.

The development and values of the Plan Adjusted Index Rates are shown in Appendix 12.1.

The Plan Adjusted Index Rates reflect the average demographic characteristics of the single risk pool and are not calibrated.

**Inclusion of Capitation Payments**

Capitated payments for services are accounted for through a PMPM allocation to claims, where the average capitation amount replaces the projected claims amount.

In 2025, children will be capitated at $3.72 PMPM for Envolve Vision (Exam & Hardware, Medical & Surgical), Vida (Health Coaching), Envolve People Care (NurseLine), Startsmart, and Teledoc - Telehealth. Adults on the base product will be capitated at $1.48 PMPM. Adults are lower since Envolve Vision (Exam & Hardware) is not included in the base product. Adults with the Vision+Dental buy-up will be capitated an additional $20.41 PMPM for Envolve Vision (Exam & Hardware) and Envolve Dental. The dates for the contract are CY2022.

In 2026, children will be capitated at $3.72 PMPM for Envolve Vision (Exam & Hardware, Medical & Surgical), Vida (Health Coaching), Envolve People Care (NurseLine), Startsmart, and Teledoc - Telehealth. Adults on the base product will be capitated at $1.48 PMPM. Adults are lower since Envolve Vision (Exam & Hardware) is not included in the base product. Adults with the Vision+Dental buy-up will be capitated an additional $16.06 PMPM for Envolve Vision (Exam & Hardware) and Envolve Dental. The dates for the contract are CY2023.

B. RETENTION ITEMS

Please see Table 6, “Retention”, for the retention items. Combined with margin and contingency from Table 10, “Plan Rates”, this represents the total administrative expenses and taxes and fees. Profit, margin, and administrative expenses do not vary by plan. The calculation of the retention loads are shown in Appendix 12.2. The PMPM values listed below are not expected to match Table 6 because the loads are calculated as a percent of EHB-only premium but are applied to aggregate projections.

**Administrative Expense Load**

The administrative expense load (12.9% of Premium) was provided by Ambetter Health. This allowance is based on projected enrollment and is estimated to appropriately cover expenses for overhead, operations, sales, and marketing expenses.

This includes approved quality improvement expenses ($3.50) and provider incentive payments ($2.00).

The administrative expenses are allocated proportionally by plan on a constant percentage of Premium basis. A breakdown of administrative expenses can be found in Appendix 12.2. See Appendix 12.3 for the development of the Administrative Cost factor applied on Appendix 12.1.

**Taxes and Fees**

The taxes and fees load (0.81% of Premium) account for the following: Risk Adjustment User Fee

($0.20), PCORI Fee ($0.32), PA Premium Tax and State Income Tax ($1.11) and Federal Income Tax ($3.94).

See Section 2a above for a description of how the Exchange user fee is calculated and applied to the Market-Wide Adjusted Index Rate.

**Profit (or Contribution to Surplus) & Risk Margin**
This load (2.00% of Premium) was applied proportionally to all products and plans and can be found in Appendix 12.2.

**Broker Commissions**
[redacted]

A sample producer agreement and commission schedules have been included in Appendix 20.2.

**Loss Ratio**
The projected medical loss ratio (MLR) is 85.4%. The projected MLR is based on the prescribed calculation from 45 CFR 158, but solely reflects the projection year single risk pool experience, rather than the three-year combined period that is used for determining MLR rebates. There was no credibility adjustment applied to the projected MLR. Including a credibility adjustment would only increase the projected MLR, which already satisfies the MLR requirement. See Appendix 15.1 for the calculation for the projected federal medical loss ratio.

C. NORMALIZED MARKET-ADJUSTED PROJECTED ALLOWED TOTAL CLAIMS
Normalization factors are shown in Table 7, "Normalized Market-Adjusted Projected Allowed Total Claims". Rates were normalized for age, tobacco usage, and benefit richness.

**Age Curve Calibration**
The development of the average age factor (1.694) may be found in Appendix 13.2.

The age curve calibration factor is calculated by weighting the prescribed age rating factors with the projected single risk pool membership distribution. This age curve calibration calculation is based on page 9 of the 2023 Unified Rate Review Instructions. The age factor for each age band is the simple average of the factors in that band. The rounded weighted average age corresponding to this age calibration factor is 50 years.

**Geographic Factor Calibration**
The development of the average geographic factor (1.000) may be found in Appendix 13.3.

In order to determine the calibration factor for geography, the projected distribution of members by area was determined. The weighted average of the area factors was then calculated using this distribution.

**Tobacco Use Rating Factor Calibration**
The development of the average tobacco factor (1.005) may be found in Appendix 13.4.

The tobacco use calibration factor removes the portion of the cost expected to be recouped through

the tobacco surcharge. This factor is calculated by weighting the tobacco factors with the single risk pool membership distribution of tobacco and non-tobacco users

**Benefit Richness Calibration**
The development of the average benefit richness factor (1.000) can be found in Appendix 20.3.

**Network Calibration**
Ambetter Health operates in a single network. There are no network differences, and thus the network factor is 1.000.

D. COMPONENTS OF RATE CHANGE
Please see Table 8, "Components of Rate Change", and Table 9, "Year-over-Year Data to Support Table 8" for the buildup of the components of rate change.

Additional detail on the drivers of the rate changes are included in Section 1b.

## 3. Plan Rate Development

Table 10, “Plan Rate Development” shows the development of the final 2026 rates by plan.

The buildup of the Induced Utilization shown in column L of Table 10 is shown in Appendix 20.3

The AV Metal Values included in Table 10 were calculated using the Final 2026 Federal AV Calculator for the plan provisions that fit within the calculator parameters and making appropriate adjustments to the AV identified by the calculator for plan design features that are not compatible with the parameters of the AV Calculator. The Unique Plan Design Supporting Documentation and Justification for applicable plans is included as part of the QHP filing.

Please refer to Appendix 16.1 for screenshots documenting the outcomes of the AV Calculator for each plan.

The 2026 version of the Unified Rate Review Template (v6.1) has error checking that aligns with the AV de minimis ranges outlined in the 2026 NBPP.

**CSR Defunding Adjustment**
A CSR Defunding Adjustment of 22.0% was selected based on review of Ambetter Health’s calculated CSR rate load, which fell below the low end of the allowable CSR rate load range of 1.22-1.26. The expectation is that the actual required CSR rate load under the alternate scenario in which expanded subsidies are extended to plan year 2026 will also fall below the 1.22 minimum allowable CSR rate load. As such, a CSR Defunding Adjustment of 1.22 would be selected in either scenario.

## 4. Plan Premium Development for 21-Year Old Non-Tobacco Use

Table 11, “Plan Premium Development for 21-Year-Old Non-Tobacco User”, shows the premium development and rate change for a 21-year-old non-tobacco user.

## 5. Plan Factors

A. AGE AND TOBACCO FACTORS

Age and tobacco factors are shown in Table 12, "Age and Tobacco Factors". Age factors represent the federal standard age curve.

The tobacco factor for 2026 is set to 1.150 for all ages 21+. In lieu of credible data, the factor was selected from a reasonable range of cost impacts based on tobacco cost literature. Specifically, the report "The Business Case for Coverage of Tobacco Cessation, 2012 Update" by Leif Associates, Inc. was considered which suggests that healthcare costs for smokers are greater than those of nonsmokers and may be as much as 34% higher than costs for non-smokers.

B. GEOGRAPHIC FACTORS

The Geographic Areas used are consistent with those defined by the state. Geographic factors are shown in Table 13, "Geographic Factors".

The geographic factors were developed to reflect provider reimbursement and practice pattern differences by area. The reimbursement reflected in the geographic factors is based on current and projected contracts for providers by rating area. The practice patterns reflected in the geographic factors are based on Health Cost Guidelines research. Projected risk pool morbidity and age/gender factors were set at statewide levels during geographic factor development. The area factors used are reflective of differences in delivery costs (including unit cost and provider practice pattern differences) only and do not reflect differences in population morbidity.

C. NETWORK FACTORS

Network factors are shown in Table 14, "Network Factors". Ambetter Health only has one network, so this factor is shown as 1.000.

D. SERVICE AREA COMPOSITION

Not Applicable. Rates do not vary by Service Area.

E. COMPOSITE RATING

Not Applicable. This is an individual rate filing.

F. CONNECTIVITY FACTORS

Not Applicable. This product filing does not include connectivity features.

## 6. Actuarial Certification

I, [redacted], am a member of the American Academy of Actuaries in good standing and meet its qualification standards for actuaries issuing statements of actuarial opinion in the United States promulgated by the American Academy of Actuaries, and have the education and experience necessary to perform the work. This filing is prepared on behalf of Ambetter Health (the "Company") to comply with applicable State and Federal Statutes for individual rate filings.

I certify the rates were developed in accordance with the appropriate Actuarial Standards of Practice (ASOPs) and the profession's Code of Professional Conduct. While other ASOPs apply, particular emphasis was placed on the following:

- ASOP No. 5, Incurred Health and Disability Claims
- ASOP No. 8, Regulatory Filings for Health Benefits, Accident and Health Insurance, and Entities Providing Health Benefits
- ASOP No. 12, Risk Classification
- ASOP No. 23, Data Quality
- ASOP No. 25, Credibility Procedures
- ASOP No. 26, Compliance with Statutory and Regulatory Requirements for the Actuarial Certification of Small Employer Health Benefit Plans
- ASOP No. 41, Actuarial Communications
- ASOP No. 42, Health and Disability Actuarial Assets and Liabilities Other Than Liabilities for Incurred Claims
- ASOP No. 45, The Use of Health Status Based Risk Adjustment Methodologies
- ASOP No. 50, Determining Minimum Value and Actuarial Value under the Affordable Care Act
- ASOP No. 56, Modeling

I certify that to the best of my knowledge and judgment:

1. The Index Rate for the Projection Period is:
   (a) In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102)
   (b) Developed in compliance with the applicable Actuarial Standards of Practice
   (c) Reasonable in relation to the benefits provided and the population anticipated to be covered
   (d) Neither excessive nor deficient based on my best estimates of the 2023 individual market.
2. The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan-level rates.

3. The geographic rating factors used reflect only differences in the cost of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.
4. The CMS Actuarial Value Calculator, with appropriate adjustments, was used to determine the AV Metal Values shown in Worksheet 2, Section I of the URRT for all plans. Regarding Pennsylvania state certification requirements, I certify that to the best of my knowledge and judgment:
5. All factor, benefit, and other changes from the prior approved filing have been disclosed.
6. No new plan is a modification of an existing plan.
7. The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2026 Rate Filing Justification.

The URRT does not demonstrate the process used to develop proposed premium rates. It is representative of information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

The 2026 plan year premium rates in this actuarial memorandum are contingent upon the status of the state and federal ACA statutes and regulations including applicable legislation, regulatory guidance, court decisions, and otherwise. Changes to these provisions have the potential to greatly impact required 2026 plan year premium rates as described in this Actuarial Memorandum and the alignment of these premium rates with incurred costs. Such changes may include but are not limited to changes to permissible or mandated covered benefits and benefit designs, changes to operation and parameters of the state Section 1332 waiver reinsurance program, continuation of APTCs, and changes to the funding status of cost sharing reduction plans.

Differences between the projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in this analysis. Actual amounts will differ from projected amounts to the extent that actual experience deviates from expected experience.

The information provided in this actuarial memorandum is in support of the items illustrated in the URRT and does not provide an actuarial opinion regarding the URRT's process used to develop proposed premium rates. It does certify that rates were developed in accordance with applicable regulations, as noted.

It is certain that actual experience will not conform exactly to the assumptions used in this analysis.

# PA Rate Template Part II
## Rate Development and Change

**Carrier Name:** Ambetter Health
**Product(s):** HMO
**Market Segment:** Individual
**Rate Effective Date:** 1/1/2026

### Table 5. Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims

| Development of the Projected Index Rate | Actual Experience Data | Manual Data | |
|---|---|---|---|
| Total Allowed EHB Claims + EHB Capitation PMPM (net of prescription drug rebates) PMPM | $ 436.05 | $ - | <- Actual Experience PMPM should be consistent with the Index Rate for Experience Period on URRT |
| Two year trend projection Factor | 1.234 | 1.000 | |
| Unadjusted Projected Allowed EHB Claims PMPM | $ 538.20 | $ - | |
| Single Risk Pool Adjustment Factors | | | |
| Change in Morbidity - Impact of Reinsurance Program | 1.000 | 1.000 | |
| Change in Morbidity - All Other | 1.062 | 0.000 | <- See URRT Instructions |
| Total Non-Morbidity Changes | 0.965 | 0.000 | |
| Change in Demographics | 0.971 | 0.000 | <- See URRT Instructions |
| Change in Network | 1.000 | 0.000 | |
| Change in Benefits | 1.000 | 0.000 | <- See URRT Instructions |
| Change in Other | 0.994 | 0.000 | <- See URRT Instructions |
| Total Adjusted Projected Allowed EHB Claims PMPM | $ 552.00 | $ - | |
| Credibility Factors | 100% | 0% | <- See Instructions |
| Blended Projected EHB Claims PMPM | | $ 552.00 | <- Projected Index Rate |
| **Development of the Market-Adjusted Index Rate and Total Allowed Claims** | | | |
| Adjusted Projected Allowed EHB Claims PMPM | $ 552.00 | | <- Index Rate for Projection Period on URRT |
| Projected Paid to Allowed Ratio | 0.833 | | |
| Projected Incurred EHB Claims PMPM | $ 459.63 | | |
| Market-wide Adjustments | | | |
| Projected Incurred Risk Adjustment PMPM | $ (106.15) | | |
| Projected Incurred Exchange User Fees PMPM | $20.30 | | |
| Projected Incurred Reinsurance Recoveries PMPM | $12.01 | | |
| Market-Adjusted Projected Incurred EHB Claims PMPM | $ 574.08 | | |
| Market-Adjusted Projected Allowed EHB Claims PMPM | $ 689.44 | | <- Market-Adjusted Index Rate |
| Projected Allowed Non-EHB Claims PMPM | $ 3.45 | | |
| Catastrophic Eligibility Adjustment | 1.000 | | |
| Market-Adjusted Projected Incurred Total Claims PMPM | 576.9524412 | | |
| Market-Adjusted Projected Allowed Total Claims PMPM | $ 692.89 | | |

**For Informational Purposes only - No input required.**

| | | |
|---|---|---|
| Blended Base Period Unadjusted Claims before Normalization | $ 436.05 | <- Index Rate of Experience Period on URRT |
| Blended Earned Premium | $ 202,098,041.42 | |
| Blended Loss Ratio | 79.99% | |

### Table 5A. Small Group Projected Index Rate with Quarterly Trend

| Effective Date | 1/1/2026 | 4/1/2026 | 7/1/2026 | 10/1/2026 | Total Single Risk Pool |
|---|---|---|---|---|---|
| # of Member Months Renewing in Quarter | - | - | - | - | - |
| Adjusted Projected Allowed EHB Claims PMPM | $ 552.00 | $ 552.00 | $ 552.00 | $ 552.00 | $ 552.00 |
| Months of Trend | - | 3 | 6 | 9 | |
| Annual Trend | 11.10% | 11.10% | 11.10% | 11.10% | |
| Single Risk Pool Projected Allowed Claims | $ 552.00 | $ 566.71 | $ 581.82 | $ 597.33 | $ - |
| Quarterly Trend Factor | 1.000 | 1.027 | 1.054 | 1.082 | 0.000 |

### Table 5B. Exchange User Fee Calculation

| | |
|---|---|
| Exchange User Fee Percentage | 3.0% |
| Expected On-Exchange Enrollment Percentage | 99% |
| Projected Required Revenue PMPM | $ 680.70 |
| Adjustment for Catastrophic Eligibility and Benefits in Addition to EHB (if applicable) | 1.000 |
| Projected Incurred Exchange User Fee PMPM | $ 20.30 |

### Table 6. Retention

| Retention Items - *Express in percentages* | Percentages | PMPM Amounts |
|---|---|---|
| Administrative Expenses | 12.86% | $87.95 |
| General and Claims | 9.31% | $63.68 |
| Agent/Broker Fees and Commissions | 3.03% | $20.74 |
| Quality Improvement Initiatives | 0.51% | $3.52 |
| Taxes and Fees | 0.81% | $5.56 |
| Risk Adjustment User Fee | 0.03% | $0.20 |
| PCORI Fee | 0.05% | $0.32 |
| PA Premium & Other Taxes (if applicable) | 0.16% | $1.11 |
| Federal Income Tax | 0.57% | $3.93 |
| Health Insurance Providers Fee (Prorated for Small Groups only) | 0.00% | $0.00 |
| Profit/Contingency (after tax) | 2.00% | $13.68 |
| Total Retention | 15.67% | $107.19 |
| Projected Required Revenue PMPM | $ 684.14 | |

### Table 7. Normalized Market-Adjusted Projected Allowed Total Claims

| Normalization Factors | 2025 | 2026 |
|---|---|---|
| Average Age Factor | 1.697 | 1.694 |
| Average Geographic Factor | 1.000 | 1.000 |
| Average Tobacco Factor | 1.005 | 1.005 |
| Average Benefit Richness (induced demand) | 0.998 | 1.010 |
| Average Network Factor | 1.000 | 1.000 |
| Market-Adjusted Projected Allowed Total Claims PMPM | $ 546.11 | $ 692.89 |
| Normalized Market-Adjusted Projected Allowed Total Claims PMPM | $ 320.80 | $ 402.71 |

### Table 8. Components of Rate Change

| Rate Components | 2025 | 2026 | Difference | Percent Change |
|---|---|---|---|---|
| A. Calibrated Plan Adjusted Index Rate (PMPM) | $ 325.36 | $ 414.54 | $ 89.18 | 27.4% |
| B. Base period allowed claims before normalization | $ 359.95 | $ 436.05 | $ 76.10 | 23.4% |
| C. Normalization factor component of change | $ (148.51) | $ (182.61) | $ (34.11) | -10.5% |
| D. Change in Normalized Allowed Claims Adjustment Components | | | | |
| D1. Base period allowed claims after normalization | $ 211.45 | $ 253.43 | $ 41.99 | 12.9% |
| D2. URRT Trend | $ 43.38 | $ 59.37 | $ 15.99 | 4.9% |
| D3. URRT Morbidity | $ 19.19 | $ 19.52 | $ 0.33 | 0.1% |
| D4. URRT Other | $ (9.64) | $ (11.50) | $ (1.86) | -0.6% |
| D5. Normalized URRT Risk Adjustment on an allowed basis | $ 56.87 | $ 74.09 | $ 17.22 | 5.3% |
| D6. Normalized Exchange User Fee on an allowed basis | $ 11.57 | $ 14.17 | $ 2.60 | 0.8% |
| D7. Normalized Reinsurance Recoveries on an allowed basis | $ (14.28) | $ (8.38) | $ 5.89 | 1.8% |
| D8. Subtotal - Sum(D1:D7) | $ 318.54 | $ 400.71 | $ 82.17 | 25.3% |
| E. Change in Allowable Plan Adjusted Level Components | | | | |
| E1. Network | $ - | $ - | $ - | 0.0% |
| E2. Pricing AV | $ (55.14) | $ (60.66) | $ (5.51) | -1.7% |
| E3. Benefit Richness | $ (0.82) | $ 7.17 | $ 7.99 | 2.5% |
| E4. Catastrophic Eligibility | $ - | $ - | $ - | 0.0% |
| E5. Benefits in Addition to EHB | $ 2.35 | $ 1.62 | $ (0.73) | -0.2% |
| E6. Subtotal - Sum(E1:E5) | $ (53.61) | $ (51.87) | $ 1.74 | 0.5% |
| F. Change in Retention Components | | | | |
| F1. Administrative Expenses | $ 46.09 | $ 53.29 | $ 7.20 | 2.2% |
| F2. Taxes and Fees | $ 2.76 | $ 3.37 | $ 0.61 | 0.2% |
| F3. Profit and/or Contingency | $ 6.51 | $ 8.29 | $ 1.78 | 0.5% |
| F4. Subtotal - Sum(F1:F3) | $ 55.36 | $ 64.95 | $ 9.59 | 2.9% |
| G. Change in Miscellaneous Items | $ - | $ - | $ - | 0.0% |
| H. Sum of Components of Rate Change (should approximate the change shown in line A) | $ 320.29 | $ 413.79 | $ 93.51 | 28.7% |

### Table 9. Year-over-Year Data to Support Table 8

| | 2025 | 2026 | |
|---|---|---|---|
| Paid-to-Allowed | 0.829 | 0.833 | |
| URRT Trend (Total Applied Trend Factor) | 1.205 | 1.234 | <- URRT W1, S2 |
| URRT Morbidity | 1.075 | 1.062 | <- URRT W1, S2 |
| URRT "Other" | 0.965 | 0.965 | |
| Risk Adjustment | $ 80.25 | $ 106.15 | <- URRT W1, S3 |
| Exchange User Fee | $ 16.33 | $ 20.30 | <- URRT W1, S3 |
| Reinsurance Recoveries | $ 20.15 | $ 12.01 | <- URRT W1, S2 |
| Capitation | $ 1.60 | $ 1.57 | |
| Network | 1.000 | 1.000 | <- For 2025 in cell J81, please include a factor equal to the product of the average Pricing AV and the Non-Funding of CSR Adjustment |
| Pricing AV | 0.827 | 0.849 | |
| Benefit Richness | 0.997 | 1.021 | |
| Catastrophic Eligibility | 1.000 | 1.000 | |
| Benefits in Addition to EHB | 1.009 | 1.005 | |
| Administrative Expenses | 14.17% | 12.86% | |
| Taxes and Fees | 0.85% | 0.81% | |
| Profit and/or Contingency | 2.00% | 2.00% | |

| 9 | 9 | 1 | and 9 |

### Key Information

**Jan. 2024 - Dec. 2024 Financial Experience**

| | | |
|---|---|---|
| Premium | $ | 166,627,452.41 |
| Claims | $ | 133,279,833.86 |
| Administrative Expenses | $ | 26,294,723.92 |
| Taxes & Fees | $ | 11,512,867.57 |
| Company Made After Taxes | $ | (4,459,972.95) |

### How It Plans to Spend Your Premium

This is how the company plans to spend the premium it collects in 2026:

| | |
|---|---|
| Claims: | 81% |
| Administrative Expenses: | 13% |
| Taxes & Fees: | 4% |
| Profit: | 2% |

The company expects its annual medical costs to increase: 11.10%

Explanation of requested rate change: Factors such as cost of care, taxes, utilization of health services, proposed changes in benefits, and anticipated changes in morbidity in relation to the single risk pool all contribute to the 2026 rate change.

**Table 16. Risk Adjustment Calculation and Table 16A. Non-Catastrophic Plan Specific RA Details have been redacted.**

**Table 17-2. Assessment of Actual to Projected for Paid Claims, Risk Adjustment, and Reinsurance**

| Plan Year | Category | Projected PMPM * | Actual PMPM | Variance |
|---|---|---|---|---|
| 2024 | Ultimate Incurred Claims | $ 265 | $ 389 | $ (125) |
| | Drug Rebates | $ (21) | $ (30) | $ 8 |
| | Risk Adjustment | $ (187) | $ (93) | $ (94) |
| | Reinsurance | $ 15 | $ 14 | $ 2 |
| | TOTAL | $ 436 | $ 469 | $ (33) |

* Projected PMPMs should come from PY24 filing.

**Table 18. Drug Data has been redacted.**

# E. Standard Questions

1. Membership:
    a. If the projected membership for plan year 2026 significantly differs from the current 2/1/2025 membership, please explain why.

       **Response**: We expect membership contraction in plan year 2026, compared to the current 2025 enrollment. The main driver being the expectation of enhanced subsided expiring.

2. Experience Period Claims:
    a. Please confirm that all claims which are capitated have been removed from the experience period claims.

       **Response**: Capitated expenses have been withheld from our base period experience, both in applicable reporting exhibits and within the development of our projected claims expenses. On a prospective rating year basis, capitated expenses are included in addition to our projected fee-for-service claims.

    b. Please confirm that all non-EHB claims have been removed from the experience period claims.

       **Response**: Similar to capitated expenses, non-EHB expenses are not included within our base period experience, both in applicable reporting exhibits and within the development of our projected claims expenses.

    c. How are drug rebates projected to change from the base period to the rating period? How has this change been reflected in the rate development?

       **Response**: Rebates are projected to increase slightly in the projection period relative to the experience period (from $28.86 PMPM to $31.24 PMPM). This is primarily driven by estimated change in negotiated rebates and expected drug mix. Within our filing documentation, most notably the URRT Worksheet 1, Section 2, changes in pharmacy rebates and dispensing fees are captured within the “Other” trend adjustment.

3. Trend:
    a. [SG. Only] If the Total Annual Trend in Table 3 (weighted by credibility) and the Annual Trend used to calculate quarterly rates in Table 5A differ, please provide an explanation and exhibit in support of the variation.

       **Response**: N/A

b. [SG. Only] In Table 5A, if cells K32:M32 are left to equal J32, please explain why that is a reasonable assumption.

**Response**: N/A

4. Table 6 – Retention:
   a. Please confirm that the federal income tax is calculated using a Federal Income Tax Rate of 21%. If other adjustments were made in Table 6, cell C57, please provide a demonstration of how this number was calculated and an explanation of the other adjustments included in the calculation.

      **Response**: We confirm we are using a Federal Income Tax Rate of 21%, reflected as such in Table 6.

   b. Please confirm that the Risk Adjustment User Fee PMPM is consistent with HHS Final Notice of Benefit and Payment Parameters for plan year 2026.

      **Response**: We confirm we are using the Risk Adjustment User Fee PMPM as identified in the plan year 2026 NBPP.

   c. Please provide an exhibit showing the commission PMPM amount to be paid to brokers in the following situations: Open-Enrollment Enrollee – Renewing, Open Enrollment Enrollee – New, Special Enrollment Period Enrollee – New, Special Enrollment Enrollee – Renewing. If the commission PMPM is not consistent between the four options above, please provide a detailed explanation as to the reason for the difference.

      **Response**: Ambetter Health does not pay different commissions based on the above four scenarios. See the below table for on-exchange and off-exchange commissions.

| Exchange Status | Commission PMPM |
|---|---|
| | |
| | |

5. Pricing AVs:
   a. Please confirm that the Pricing AVs were calculated using a single risk pool (i.e., claims/utilization experience is not separated by metal level).

      **Response**: We confirm that our Pricing AVs were calculated using a single risk pool. Our Pricing AV development uses a claims simulation methodology, with the same dataset used in the simulation for all plan designs regardless of metal level.

b. Please identify and support any differences between the company's metallic AV calculator results and the corresponding Pricing AVs.

**Response**: Please refer to Table 10 of the PAAM for the metallic AV calculator results and Pricing AVs for each plan.

The Federal AV calculator is a tool designed to determine levels of coverage (metallic tiers). The AV calculator methodology published by CMS specifically states that "the AV Calculator is intended to establish a comparison tool and was not developed for pricing purposes". It is expected that AV pricing values will not track with metallic AVs, due to differences in modeling methodology and underlying data. Our pricing AVs were developed using a claims simulation model calibrated to the expected PA population, as discussed in section 12 of the actuarial memorandum, which is a more accurate reflection of expected claims costs than the general dataset underlying the Federal AV calculator. We have sensitivity tested our internal modeling and found that differences in benefit design do not impact our modeled AVs in the same manner as the Federal AV calculator results.

6. Expanded Bronze Plans:
   a. Please provide an exhibit which demonstrates that the criteria for expanded bronze plans have been met.

**Response**: The criteria for expanded bronze are that the plan must either be a qualified HDHP OR cover at least one major service with reasonable cost sharing before the deductible. The list of major services is primary care visits, specialist visits, inpatient hospital services, generic drugs, specialty drugs, preferred brand drugs, or emergency room services; and based on discussions with PID in previous years "reasonable cost sharing" is defined as no greater than 50% member coinsurance or equivalent copay. Please refer to the table below for an exhibit showing all expanded bronze plans included in this filing along with a description of how each plan meets the expanded bronze criteria.

| Plan Design | Plan ID | Expanded Bronze Criteria Met |
|---|---|---|
| Ambetter Elite Bronze | 86199PA0010031 | PCP visit - copay $50 not subject to deductible |
| Ambetter Everyday Bronze | 86199PA0010028 | PCP visit - copay $40 not subject to deductible |
| Ambetter Elite Bronze + Vision + Adult Dental | 86199PA0020031 | PCP visit - copay $50 not subject to deductible |
| Ambetter Everyday Bronze + Vision + Adult Dental | 86199PA0020028 | PCP visit - copay $40 not subject to deductible |

7. PAAM Exhibits – Consumer Factors:
    a. Please provide quantitative and qualitative support for the proposed geographic rating area factors, if different from the previous year.

       **Response**: Please refer to [Appendix 13.3] in the actuarial memorandum appendices for quantitative and qualitative support for the proposed geographic rating area factors.

    b. Please provide quantitative and qualitative support for the proposed network factors, if different from the previous year.

       **Response**: Ambetter Health does not utilize network factors.

8. Plan of Withdrawal:
    a. Please confirm that a Plan of Withdrawal has been submitted if any plans are being discontinued.

       **Response**: We confirm that we will not need to submit a Plan of Withdrawal for plan year 2026.

9. Copay Adjustment Programs:
    a. Does the company use a copay adjustment program (also known as a copay accumulator program)?
        i. If the company uses a copay adjustment program, please provide a detailed narrative that describes how the program works and the motivation behind implementing the program.

       **Response**: We do not use a copay adjustment program.

    c. How does the company handle copay assistance coupons? For example, does the coupon apply to the MOOP?

       **Response**: Copay assistance coupons count towards the deductible and MOOP.

    b. If any change to such a program has resulted in a pricing impact, please include a narrative describing how the impact has been included within the rate development and a detailed quantitative exhibit supporting the impact.

       **Response**: We have had no significant change to this program since the pricing base year in 2024.

10. PBM and Act 77 of 2024 Compliance: The Department expects insurers to work closely with their PBM to conduct a good faith effort at collecting the requested data below.

# Part II: Written Justification of Rate Increase

Redacted Ambetter Health
Annual Individual Health Rate Filing
Pennsylvania
Assuming CSR Subsidies are Unfunded
Effective January 1, 2026
Forms: 15983PA001, 15983PA002, 15983PA003

Ambetter Health is filing rates for the individual block of business, effective January 1, 2026. This document is submitted in conjunction with the Part I Unified Rate Review Template and the Part III Actuarial Memorandum.

This information is intended for use by the Pennsylvania Insurance Department, the Center for Consumer Information and Insurance Oversight (CCIIO), and health insurance consumers in Pennsylvania to assist in the review of Ambetter Health's individual rate filing.

The results are actuarial projections. Actual experience will differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

In 2024, earned premium was $532.45 per member per month (PMPM). Incurred claims in 2024 were $351.14, or 65.95% of premium. Netting risk adjustment from the claims results in an estimated loss ratio (incurred claims net of estimated risk adjustment transfers, divided by earned premiums) of 83.50%. We expect unit costs to increase for 2026. Further, we have updated underlying experience for the single risk pool, expected administrative expense, and assumptions for federal risk adjustment. These factors, as well as changes to the assumed morbidity of the single risk pool and medical trend, result in a premium rate increase.

Medical trend, or the increase in health care costs over time, is composed of two components: the increase in the unit cost of services and the increase in the utilization of those services. Unit cost increases occur as care providers and their suppliers raise their prices. Utilization increases can occur as people seek more services than before. Additionally, simple services can be replaced with more complex services over time, which is known as service intensity trend. An example of service intensity trend would be the replacement of an X-ray with an MRI scan. Replacing the service with a more intense service causes the total cost of medical services to increase.

The proposed rate change of 30.1% applies to approximately 60,055 individuals. Ambetter Health's projected administrative expenses for 2026 are $82.56 PMPM. Administrative expense does not include $20.95 for taxes and fees. The historical administrative expenses for 2025 were $72.65 PMPM, which excludes taxes and fees. The projected loss ratio is 85.4% which satisfies the federal minimum loss ratio requirement of 80.0%.

# 1. General Information

**Scope and Purpose**

This document contains the Part III Actuarial Memorandum for Ambetter Health's individual health block of business annual rate filing, effective January 1, 2026. This Actuarial Memorandum is submitted in conjunction with the Part I Unified Rate Review Template (URRT). This is a renewal rate filing.

The purpose of this Actuarial Memorandum is to provide certain information related to the submission, including support for the values entered into the Part I URRT. In combination, these documents support compliance with the market reform rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

Consistent with the October 12, 2017 payment memo from the U.S. Department of Health and Human Services (HHS)[1], the premium rates developed and supported by this Actuarial Memorandum assume that cost-sharing reduction (CSR) subsidies will not be funded and enhanced Advanced Premium Tax Credits (eAPTCs), as provisioned under the Inflation Reduction Act, expire on December 31, 2025 consistent with current law and regulations in effect or otherwise scheduled to take effect in plan year 2026.

Additionally, these rates assume that CMS' Marketplace Integrity and Affordability rule, published in the Federal Register on March 19, 2025, is finalized as proposed - including key rule changes regarding open enrollment, special enrollment periods, and annual eligibility redeterminations. Rates also reflect benefit designs and cost-sharing structures aligned with the revised de minimis actuarial value (AV) ranges specified in the proposed rule for the 2026 plan year.

Future modifications in legislation, regulation and/or court decisions regarding the funding of CSR payments and eAPTCs, including partial funding relative to current levels, and CMS' Marketplace Integrity and Affordability Rule, may affect the extent to which these premium rates are sufficient and neither excessive nor deficient.

Ambetter Health asserts that the premium rates developed and supported by this Actuarial Memorandum are based on legislative and regulatory provisions in effect at the time of submission.

Ambetter Health reserves the right to file revised rates in the event of changes to the regulatory environment in which they were developed to ensure rates are appropriate. In addition to CSR payments and risk adjustment program payments and disruption, material rating impacts could arise from changes to various factors, including but not limited to:

- Advance Premium Tax Credits, including extension of Advanced Premium Tax Credits as provisioned in the Inflation Reduction Act
- The resumption of Medicaid redeterminations due to the end of the continuous enrollment condition under the Consolidated Appropriations Act, 2023
- Constraints on age rating factors
- Open enrollment and grace periods

[1] https://www.hhs.gov/sites/default/files/csr-payment-memo.pdf

- Enrollment of other populations, such as Medicare, Medicaid, and high risk pools
- Taxes and fees, notably the suspension of the ACA Insurer Fee
- Emerging experience as it relates to both claims and risk adjustment, notably the updated HCC coefficients in the 2026 model as laid out in the Final Rule for the 2026 Annual Notice of Benefit and Payment Parameters
- Enrollment and emerging experience of members with an FPL under 150% as it relates to the special enrollment period granting year-round enrollment.
- 1332 Reinsurance parameters; this filing includes an attachment point of $60,000.

If there are material deviations in market level premiums from our projected statewide average premium (SWAP) assumption for 2026 - for example, based on changes in the number of carriers in the market or carriers' pricing assumptions for 2026 - we would like to work with the Pennsylvania Insurance Department after initial submissions to revise our filing to update our estimated risk adjustment transfer. Market disruption, resulting from changes or carriers' perceived changes in the risk adjustment program, could also necessitate working with the Department to update other critical pricing assumptions such as market morbidity and relative risk.

This information is intended for the sole use by the Pennsylvania Insurance Department, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of the Ambetter Health individual rate filing. However, we recognize that this certification may become a public document.

These results are actuarial projections. Actual results will vary from those projected in the filing for a number of reasons, including but not limited to changes in membership, claims experience, and random variation from selected assumptions.

**Company Identifying Information**

- Company Legal Name: Ambetter Health
- State: The State of Pennsylvania has regulatory authority over these policies
- HIOS Issuer ID: 15983
- Market: Individual
- Effective Date: January 1, 2026

**Company Contact Information**

- Primary Contact Name: [redacted]
- Primary Contact Telephone Number: [redacted]
- Primary Contact Email Address: [redacted]

**Description of Benefits**

These products are issued by Ambetter Health as HMO health policies. The major provisions of this form for each plan design and product can be found in Appendix 1.1.

**Rate Guarantees**
Rates are guaranteed not to change through December 31, 2026.

**Renewability**
Each policy is renewable by paying the applicable renewal premiums, unless the policyholder no longer meets the eligibility requirements of the policy or Ambetter Health decides to discontinue that specific policy.

**Applicability**
These rates will apply to both new and renewing business.

**General Marketing Method**
This product will be sold through agents, direct mailings, the internet, and the Health Insurance Exchange.

**Estimated Average Annual Premium**
The estimated average annual premium per policy in calendar year 2026 is $8,220.

**Distribution of Business**
See Appendix 1.2 for the expected age and geographic distributions for these products.

**Rate Tables**
See Appendix 1.3 for allowable rating factors. Appendix 1.4 also includes an example of how rating factors will be applied. Note that for family coverage, rates for children are charged to no more than the three oldest covered children under age 21 consistent with the Family Structure rules of the Patient Protection and Affordable Care Act (ACA).

**Impact of eAPTC Expiration**
To account for eAPTC expiration prior to the 2026 benefit year, we have assumed rates will increase due to anticipated reductions in enrollment, both at the issuer and single risk pool level. As eAPTCs expire and enrollees subsequently face increased out-of-pocket premiums, we assume healthier individuals who tend to be more price sensitive will leave the market, worsening the average morbidity of the individual risk pool.

For Additional support of the rating impact of eAPTC expiration, please refer to Appendix 1.5.

## 2. Proposed Rate Changes

The rate increases for each product offered in the single risk pool by Ambetter Health in the state of Pennsylvania are reflected in Worksheet 2, Section I of the Part I URRT.

**Reasons for Rate Increase(s):**
The rate projections for 2026 have been updated from the previous year's projections to reflect the most recent assumptions and information available.

The following provides a narrative description of the significant factors driving the proposed rate increase for 2026.

- Single Risk Pool Experience and Morbidity (16.9% of premium impact versus 2025 filed rates)

  The individual single risk pool experience underlying the rate projections has been updated. The current model reflects the projected utilization trend applied to adjusted experience (from 2024 to 2026), including anticipated changes in the average morbidity of the single risk pool. There is a full description of utilization trend and other projection factors applied to experience in Section 6, 'Trend Factors'.

  Risk adjustment transfer experience for 2026 includes consideration of changes to the statewide average premium, the Risk Adjustment program, and Ambetter Health enrollee population morbidity relative to the Pennsylvania single risk pool.

- Unit Cost trend ( 7.6% of premium impact versus 2025 filed rates)

  Unit costs and provider reimbursement agreements have been updated to reflect changes in the rating year.

- Utilization trend ( 1.7% of premium impact versus 2025 filed rates)

  The projected utilization trends are consistent with observed historical trends based on internal analysis of our marketplace experience, supplemented by the Milliman Health Cost Guidelines. There is a description of the Health Cost Guidelines in Section 8, "Manual Rate Adjustments".

- Changes in Administrative Expenses and Profit ( 1.7% of premium impact versus 2025 filed rates)

  Changes in general administrative expenses incorporated into 2026 rates are resulting in a rate change due to differences from prior year expense assumptions. See Section 12, "Plan Adjusted Index Rate", for details on projected non-benefit expenses.

- eAPTC Expiration (+7.9% of premium impact versus 2025 filed rates)

  To account for eAPTC expiration prior to the 2026 benefit year, we have assumed rates will increase due to anticipated reductions in enrollment, both at the issuer and single risk pool level. As eAPTCs expire and enrollees subsequently face increased out-of-pocket premiums, we assume healthier individuals who tend to be more price sensitive will leave the market, worsening the average morbidity of the individual risk pool.

- Other

  These components include capitation contracts, changes in the 1332 program, and interactions between prior steps.

Note that the requested rate change may not be the same across all plans within a product due to changes to the member cost sharing amounts by plan. Additionally, the defunding of CSR subsidies has contributed to the rate levels being higher than if the subsidies were to be funded.

## 3. Single Risk Pool

The Index Rate is based on the single risk pool defined by the state of Pennsylvania, which was established according to the requirements in 45 CFR Part 156.80. The single risk pool is defined as including all non-grandfathered individual business in Pennsylvania.

The single risk pool for the experience period does not include transitional products/plans. The single risk pool for the 2026 projection period does not include members who still remain enrolled in transitional plans.

## 4. Experience and Current Period Premium, Claims and Enrollment

The following information supports the best estimate of premium and claims for the single risk pool during the experience period, as reported in Worksheet 1, Section I of the URRT. The experience period for this rate filing is incurral year 2024, and includes claims paid through 3/31/2025.

**Allowed and Incurred Claims incurred During the Experience Period:**
A breakout of the claims shown in Worksheet 1, Section I is provided in Appendix 4.1.

Allowed and incurred claims, as defined by the URR instructions, were determined from Ambetter Health's claim record system. Incurred but not paid amounts were estimated using a combination, as appropriate, of the loss development and Bornhuetter-Ferguson completion methodologies. There are no material differences in the methodology for estimating completed allowed versus completed incurred claims. The estimation for incurred but not paid amounts is based on the experience period claims reported. Actual claims run-out may reflect some variability from future expectations. There are no unusually high or low completion factors being applied to allowed or incurred claims resulting from internal shifts in administration practices.

Cost-sharing reduction (CSR) subsidies were unfunded for the entirety of the base period. For rating purposes, we assumed that CSR subsidies will continue to be unfunded throughout the projection period.

**Experience Period Risk Adjustment and Reinsurance Adjustments PMPM:**
The risk adjustment transfer and reinsurance receivables for the experience period are shown on Worksheet 1, Section I of the URRT. The final amounts for risk adjustment and any applicable reinsurance receivables were not known at the time of rate development. These amounts were estimated using data available through 3/31/2025.

**Current Enrollment and Premium:**
The current enrollment and premium values on Worksheet 2, Section II are reported as of 3/31/2025.

Earned premium in the experience period is not adjusted for taxes, assessments, risk adjustment receivables or payables or MLR rebates.

## 5. Benefit Categories

The benefit categories in Worksheet 1, Section II of the Part I URRT were populated using the Milliman Health Cost Guidelines (HCG) methodology. Due to the high detail of the HCG's benefit categories, the HCG categories were consolidated via a mapping to the URRT's benefit categories. See Appendix 5.1 for a description of this mapping.

The algorithm used to assign utilization data and cost information is summarized as follows.

**Inpatient Hospital**
Inpatient hospital includes non-capitated facility services for medical, surgical, maternity, mental health and substance abuse, skilled nursing, and other services provided in an inpatient facility setting and billed by the facility.

**Outpatient Hospital**
Outpatient hospital includes non-capitated facility services for surgery, emergency room, lab, radiology, therapy, observation, and other services provided in an outpatient facility setting and billed by the facility.

**Professional**
Professional includes non-capitated primary care, specialist, therapy, the professional component of laboratory and radiology, and other professional services other than hospital-based professionals whose payments are included in facility fees.

**Other Medical**
Other medical includes non-capitated ambulance, home health care, DME, prosthetics, supplies, vision exams, dental services, and other services. The measurement units for utilization used in this category are a mix of visits, cases, procedures, etc.

**Capitation**
Capitation includes all services provided under one or more capitated arrangements.

**Prescription Drug**
Prescription drug includes drugs dispensed by a pharmacy and is net of rebates.

## 6. Trend Factors

This section describes and supports the factors used to project the 2024 experience period allowed claims to the 2026 projection period as shown in Worksheet 1, Section II of the URRT.

**Trend Factors:**
Trend Factors (cost/utilization):
Experience period claims were trended 24 months to 2026. The annualized cost trend factors reflect the following:

- Changes in contractual reimbursement and discounts between the experience and projection periods for a fixed basket of services. This is for providers that were already part of the network in 2024, based on its actual 2024 contracts and ongoing provider and PBM contracting efforts for 2026, controlling for changes in service mix, the geographic distribution of its enrollees, and pharmacy rebates. This also includes the change in distribution of services among network providers other than changes driven by expanding the provider network.
- Average charge trend between the experience and projection periods normalized for demographics, morbidity, and benefit design based on the Milliman Health Cost Guidelines

Appendix 6.1 decomposes the cost trend factor into its constituent parts.

The annualized utilization trend factors reflect the following:

- Assumed changes in the mix or intensity of services provided for a fixed level of illness burden.
- Secular utilization trend, normalized for demographics, morbidity, and benefit design, informed by consideration of multiple sources, including typical industry trend assumptions, the Milliman Health Cost Guidelines, and analysis of observed historical trends for Ambetter products.

Appendix 6.2 decomposes the utilization trend factor into its constituent parts.

## 7. Adjustments to Trended EHB Allowed Claims PMPM

This section describes and supports the adjustments other than trend used to project the 2024 experience period Essential Health Benefit (EHB) allowed claims to the 2026 projection period as shown in Worksheet 1, Section II of the URRT. Each factor represents the change between the experience period and projection period. The factors, therefore, are not annualized values.

Morbidity Adjustments:
Claims were adjusted for estimated differences in morbidity between Ambetter Health's 2024 membership and its projected 2026 membership. Appendix 7.1 decomposes the morbidity projection factor into its components.

Utilization was adjusted for projected changes in single risk pool morbidity from 2024 to 2026 considering regulatory and market uncertainties, as well as projected morbidity changes for Ambetter Health's members relative to the single risk pool from 2024 to 2026.

Consistent with the 2026 URR instructions, these morbidity adjustments reflect the component of the change in average allowed claims PMPM, holding constant the experience period population's demographics (e.g. age, gender, and region), product mix, and all provider network contracts and time parameters.

The relative morbidity assumption used for projection claims reflects Ambetter Health's expectations regarding the morbidity of its 2026 membership relative to the single risk pool, and is consistent with the relative morbidity assumption used to estimate Ambetter Health's risk transfer payment or receivable.

Morbidity was adjusted to account for changes in the market population due to the expiration of eAPTCS.

Demographic Shift:
Experience period claims were adjusted for differences in the projected mix of 2026 membership by gender and age band using demographic factors. The factors underlying this trend represent the blending of two sets of factors: a manually developed set from the Milliman Health Cost Guidelines and a set developed from Ambetter Health-specific experience. This approach was selected to mitigate shifts observed in our experience demographic factors relative to the manual Health Cost Guideline factors.

Plan Design Changes:
This adjustment factor reflects anticipated changes in the demand for services due to differences in product mix and cost-sharing requirements from the experience period to the projection period. Population demographics and morbidity were held constant across plan designs for this adjustment to avoid confounding with morbidity.

Other Adjustments:
Experience period claims were also adjusted for the following changes between the experience period and projection period:

- Changes in capitation contracts
- Changes in pharmacy rebates and dispensing fees between the experience and projection

periods developed based on changes to PBM contracting from 2024 to 2026 and projected drug utilization

- The reimbursement impact of expanding the provider network from 2024 to 2026 (developed using estimates of the distribution of services and relative unit costs by provider). This only reflects the impact of new providers; the impact of changes in the distribution of services among existing network providers is reflected in unit cost trend.
- Adjustment for expected claims costs without corresponding premium revenue, due to ACA grace period provisions.

## 8. Manual Rate Adjustments

This filing is 100% experience rated. No credibility manual rate is being filed for 2026.

Where manual adjustments to claims are required to model changes in Ambetter Health's population and coverage over time, most notably utilization trend as discussed in section 2, these adjustments are based on the Milliman Managed Care Rating Model (MCRM) and the companion Milliman Health Cost Guidelines (HCGs), and consideration of relevant QHP experience in other states.

The HCGs provide a flexible but consistent basis for the determination of claim costs for a wide variety of health benefit plans. These rating structures are used to anticipate future claim levels, evaluate past experience, and establish interrelationships between different health coverage levels.

The Milliman HCGs are developed as a result of Milliman's continuing research on health care costs. They were first developed in 1954 and have been updated and expanded annually since then. These guidelines are continually monitored as they use them in measuring the experience or evaluating the rates of their clients and as they compare them to other data sources.

The HCGs are a cooperative effort of all Milliman health actuaries and represent a combination of their experience, research, and judgment. An extensive amount of data is used in developing these guidelines including published and unpublished data. In most instances, cost assumptions are based on their evaluation of several data sources and, therefore, are not specifically attributable to a single source. Since these guidelines are a proprietary document of Milliman, they are only available for release to specific clients that lease these guidelines and to Milliman consulting health actuaries.

## 9. Credibility of Experience

This filing is 100% experience rated, based on the assumption that a state with experience exceeding 125,000 member months should receive full credibility. No credibility manual rate is being filed for 2026.

Here, “member months” are defined as the aggregate 2024 member months across Ambetter Health calendar year 2024 individual block of business that are suitable for pricing.

- Total 2024 Member Months: 379,562
- Credibility Level Assigned to Base Period Experience: 100%

Note that credibility is calculated based on 2024 experience data that are suitable for pricing and may not exactly match the total 2024 member months shown above.

Actuarial Standard of Practice #25 “Credibility Procedures” was considered when determining the credibility level.

## 10. Establishing the Index Rate

The Index Rate for the Experience Period (calendar year 2024) is a measurement of the average allowed claims PMPM for EHB benefits. This value is located on Worksheet 1, Section I of the URRT. The Index Rate for the Experience Period reflects the actual mixture of smoker/non-smoker population, area factors, plan enrollment, and the actual mixture of risk morbidity in the single risk pool during the experience period. The Index Rate for the experience period has not been adjusted for payments and charges under the risk adjustment and reinsurance programs or for Exchange user fees. We have adjusted the Index Rate for the Experience Period to remove any non-EHBs. The claim system does not currently distinguish between EHB and non-EHB claims, so this adjustment was made based on the expected percentage of non-EHB claims for the experience period. The experience period did not contain non-single risk pool claims, so no adjustment was made for this.

The Index Rate for the Projection Period (calendar year 2026) is reflected in Worksheet 1, Section II of the URRT. It was developed following the specifications of 45 CFR part 156.80(d) (1). The Index Rate for the Projection Period represents the estimated total combined projected allowed claims PMPM for Essential Health Benefits (EHB) for calendar year 2026 only and has not been adjusted for payments and charges under the risk adjustment program or for Exchange user fees. The index rate differs from the total allowed claims in that the total allowed claims include benefits in excess of EHBs (adult vision and adult dental). The Index Rate for the Projection Period was calculated based on the methodology discussed in Section 6, 'Trend Factors' and Section 7, 'Adjustments to Trended EHB Allowed Claims PMPM' above and does not include benefits in excess of the EHBs. The Index Rate for the Projection Period will remain unchanged until a renewal filing effective January 1, 2027.

The development of the Index Rate for the Projection Period is shown in Worksheet 1, Section II. This reflects:

- The 12-month projection period shown in Worksheet 1, Section II
- The anticipated claim level of the projection period with respect to trend, benefits, and demographics
- The experience of all policies expected to be in the single risk pool (with necessary adjustments)

Appendix 10.1 demonstrates the calculation of the Projected Index Rate by blending the Experience Period Index Rate with the Credibility Manual Index Rate, as applicable. The next two sections further describe the steps taken to develop the Market Adjusted Index Rate and Plan Adjusted Index Rate.

## 11. Development of the Market-Wide Adjusted Index Rate

The Index Rate for the projection period is adjusted to arrive at the Market Adjusted Index Rate (MAIR) based on the following, as outlined in 45 CFR 156.80(d):

- Adjustment for the Risk Adjustment Program
- Exchange user fee adjustment

The risk adjustment payment/charge is described below. Since the Index Rate is on an allowed claims basis, the market-level adjustments are also performed on an allowed basis.

The net Exchange user fee adjustment applied to premium rates is 2.98% of premium. Per the 2026 final benefit and payment parameters, the Exchange user fee is 2.98% of premium for members purchasing coverage via the Exchange. Similar to the Index Rate, the MAIR reflects the average demographics of the single risk pool. In other words, the MAIR is not calibrated. In Appendix 11.1, the user fee is shown on an allowed basis as a multiplicative factor of 1.037. For further detail on the development of the MAIR, please refer to Appendix 11.1.

**Reinsurance:**
No federal reinsurance recoveries are expected in the projection period. The reinsurance that was entered in the field for projected reinsurance on URRT Worksheet 1, Section II reflects a reduction in the index rate due to the Section 1332 State Relief and Empowerment Waiver. On Appendix 11.1, the reinsurance adjustment is shown on an allowed basis as a multiplicative factor, and this factor is 0.974.

**Risk Adjustment Payment/Charge:**
The Projected Risk Adjustment PMPM is shown on Worksheet I, Section II. The amount excludes the 2026 Risk Adjustment User Fee of $0.20 PMPM ( 0.03% of premium ). The amount includes the projected reinsurance impact from the high risk pool assessment under the risk adjustment program. The gross impact in 2026 was estimated by trending experience and applying the provisions of the reinsurance contract to known high risk exposures. This amount was subtracted from a 0.28% of premium charge to fund the pool. This net impact was combined with the projected risk adjustment transfer amount to calculate a final risk adjustment liability for 2026. Appendix 11.1 shows how the anticipated risk adjustment transfer is applied to the Index Rate in the development of the Market Adjusted Index Rate.

The Risk Transfer calculations are based on the risk adjustment transfer formula, as provided in the Federal Register Volume 78 Number 47, and displayed below:

$$T_i = \left[\frac{(PLRS_i \times IDF_i \times GCF_i)}{\sum_i (s_i \times PLRS_i \times IDF_i \times GCF_i)} - \frac{(AV_i \times ARF_i \times IDF_i \times GCF_i)}{\sum_i (s_i \times AV_i \times ARF_i \times IDF_i \times GCF_i)}\right] \times \overline{P}_s$$

Where:

$\overline{P}_s =$ statewide average premium $\times$ 0.86 (to reflect the admin reduction adjustment);

$PLRS_i =$ plan $i$'s plan liability risk score;

$AV_i =$ plan $i$'s metal level AV;

$ARF_i =$ plan $i$'s allowable rating factor;

$IDF_i$ = plan $i$'s induced demand factor;

$GCF_i$ = plan $i$'s geographic cost factor;

$S_i$ = plan $i$'s share of state enrollment as measured in member months

The denominator is summed across all plans in the risk pool in the market in the state.

We project the portfolio average for each factor in the risk adjustment transfer formula using a combination of (i) actual historical risk adjustment factors adjusted to the projected population and (ii) adjustments for market and risk adjustment program changes. The resulting aggregate payment or receivable is then proportionally allocated to all plans in the portfolio.

For the purposes of stable modeling, each factor was approximated as follows:

$\overline{P}_s$: The state average premium was assumed to be approximately [redacted] PMPM (net of the 14% administrative cost carve out)

PLRS: The statewide average risk score is projected based on the average PLRS of the single risk pool in 2024. For historical risk transfer data, we rely on a combination of the latest available HHS Summary Report on Permanent Risk Adjustment Transfers and when available, Wakely's National Risk Adjustment Reporting Project (WNRAR) for the state of Pennsylvania.

Ambetter Health's projected average risk score differs from the projected single risk pool average risk score due to differences in demographics, plan mix, and morbidity between the two populations.

Based on the Final Rule for the 2026 Annual Notice of Benefit and Payment Parameters, HHS's proposed 2024 and 2026 HCC model and coefficient changes for 2026 (including partial year adjustment factors, prescription drug condition categories, and model recalibration) were considered in the development of the projected risk adjustment transfer. The demographic, plan mix, and morbidity assumptions were used to project claims costs.

IDF: The statewide average IDF is projected based on the average IDF of the single risk pool in 2026. For historical risk transfer data, we rely on a combination of the latest available HHS Summary Report on Permanent Risk Adjustment Transfers and when available, Wakely's National Risk Adjustment Reporting Project (WNRAR) for the state of Pennsylvania.

The average IDF for Ambetter Health is projected by applying the induced demand factors from the market reform rule published in the March 11, 2013 Federal Register, page 15433, Table 11 to Ambetter Health's projected population. The formula recognizes the following IDF factors by metallic tier: Bronze 1.00, Silver, 1.03, Gold 1.08, and Platinum 1.15.

AV: The statewide average actuarial value (AV) is projected based on the average metal level AV of the single risk pool in 2024. For historical risk transfer data, we rely on a combination of the latest available HHS Summary Report on Permanent Risk Adjustment Transfers and when available, Wakely's National Risk Adjustment Reporting Project (WNRAR) for the state of Pennsylvania. The average AV for Ambetter Health is calculated by applying the metal level AV factors from the market reform rule published in the March 11, 2013 Federal Register, page 15433, Table 9 to Ambetter Health's projected population. The formula recognizes the following AV values by metallic tier: Bronze 0.60, Silver 0.70, Gold 0.80, and Platinum 0.90.

ARF: As stated in the March 11, 2013 Federal Register, page 15433, the allowable rating factor (ARF) adjustment accounts only for age rating.

The statewide average ARF was set equal to the average ARF of the single risk pool in 2024. For historical risk transfer data, we rely on a combination of the latest available HHS Summary Report on Permanent Risk Adjustment Transfers and when available, Wakely's National Risk Adjustment Reporting Project (WNRAR) for the state of Pennsylvania.

The average ARF for Ambetter Health is projected by applying the proposed 2026 HHS age rating factors to Ambetter Health's projected population. An equal distribution across ages within each age band was assumed.

GCF: The average Geographic Cost Factors for Ambetter Health's membership is projected based on the 2023 GCFs, as reported by HHS, adjusted for projected changes caused by carrier rate actions from 2023 to 2026.

Outliers were reflected in our calculations to the extent that outliers are reflected in historical risk scores used as the starting point of the 2026 risk transfer projection and via the calculation of the net High Risk Pool receivable or payment. Otherwise, there were no "potential outlier assumptions" that would have an impact on transfers.

The projected transfer amount assumes no impact under the Risk Adjustment Data Validation (RADV) process.

The risk adjustment transfer amounts shown on Worksheet 1 of the URRT are the actual PMPM amounts expected in the projection period. The risk adjustment transfer amount applied to the Index Rate in the development of the Market Adjusted Index Rate is on an allowed claims basis, as the Index Rate is on an allowed claims basis.

The demographic, plan mix, and morbidity assumptions supporting the risk transfer projection are consistent with the demographic, plan mix, and the morbidity assumptions used to project claims costs.

**Exchange User Fees:**
Exchange user fees have been applied as an adjustment to the Index Rate at the market level. In Appendix 11.1, the user fee is shown on an allowed basis as a multiplicative factor. Note, we assumed 99.43% of members would enroll through the Exchange and 0.57% would enroll outside of the Exchange.

## 12. Plan Adjusted Index Rate

The Plan Adjusted Index Rate (PAIR) is included in Worksheet 2, Section III of the URRT. The PAIR is the MAIR adjusted for only the following allowable adjustments, where applicable, as outlined in 45 CFR 156.80(d):

- Actuarial value and cost-sharing design of the plan.
  - The CMS Actuarial Value Calculator was used to determine the AV metal value for plan provisions that fit within the calculator parameters. The AVs for all plans were developed using appropriate adjustments as described in section 16 of this actuarial memorandum.
  - The actuarial value and cost-sharing pricing adjustment was developed using a claims simulation methodology with a large dataset of individual exchange data, calibrated to the expected population.
    - Under a claims simulation approach to modeling plan relativities, member-level claims are re-adjudicated using the cost sharing parameters of each plan design, thereby calculating plan versus patient liability.
    - Using the same dataset for plan rating factors ensures that a static demographic and risk profile informs the rating factor of each plan so that allowed relativities by plan solely reflect benefit design differences.
    - Rate increases can vary by plan under this methodology without reflecting morbidity differences. For example, rate increases naturally vary by plan over time as the relationship changes between cost sharing levels and the allowed costs to which they are applied (i.e., leveraging).
  - The actuarial and cost-sharing pricing adjustment reflects full plan liability for CSR subsidies. CSR costs are reflected as a uniform percentage load applied to each silver ACA-compliant plan.
- The plan's provider network, delivery system characteristics, and utilization management adjustment practices
  - Not applicable. All plans have the same provider network.
- Benefits provided under the plan that are in addition to the EHBs.
  - These benefits include adult vision and adult dental.
- Administrative costs, excluding the Exchange user fees (which are already accounted for in the Market Adjusted Index Rate).
  - The administrative costs are discussed further in the subsequent paragraphs of this section

There are no catastrophic plans being offered, so there is no eligibility adjustment made for catastrophic plan enrollment.

Administrative costs and non-EHB benefits common to all plans are added to the Market Adjusted Index Rate. Then, factors for actuarial value and cost-sharing and non-EHBs by plan are applied to reach the Plan Adjusted Index Rate for each plan.

The development and values of the Plan Adjusted Index Rates are shown in Appendix 12.1 and are not calibrated.

On Worksheet 2, Section II, the Plan Adjusted Index Rate of the Experience Period is reported.

**Administrative Expense Load:**
The administrative expense allowance is based on the projected enrollment and is estimated to appropriately cover expenses for overhead, operations, sales, and marketing expenses.

There is an additional amount to cover approved quality improvement expenses and provider incentive payments. This amount is still included in the numerator (and excluded from the denominator) of the federal MLR calculation, but is described in Appendix 12.2 due to sharing similar attributes with other administrative expenses.

The administrative expenses are allocated proportionally by plan on a constant percentage of premium basis.

**Profit (or Contribution to Surplus) & Risk Margin:**
This load was applied proportionally to all products and plans and can be found in Appendix 12.2.

**Taxes and Fees:**
The taxes and fees which may be subtracted from premiums for purposes of calculating the MLR are listed in Appendix 12.2. The Risk Adjustment User Fee has been included as part of this adjustment. See Section 11, “Development of the Market-Wide Adjusted Index Rate”, for a discussion on how the Exchange user fee was calculated and applied to the Market Adjusted Index Rate.

## 13. Calibration

The Plan Adjusted Index Rate is calibrated for plans within the single risk pool to correspond to an age rating factor of 1.0, a geographic rating factor of 1.0, and a tobacco use rating factor of 1.0. The intent of the calibration factors is to reset the Plan Adjusted Index Rate so that applying the age factor, geographic rating area factor, and tobacco use factor will result in the appropriate consumer adjusted premium rate. The calibration factors for each of the age, geographic, and tobacco use factors are shown in Appendix 13.1. Note that each of the calibration factors has one value that is applied uniformly and does not vary by plan.

**Age Curve Calibration:**
The age curve calibration factor is applied in Appendix 13.1. The age curve calibration factor is calculated by weighting the prescribed age rating factors with the single risk pool membership distribution. This age curve calibration calculation is based on page 9 of the 2026 Unified Rate Review Instructions. Appendix 13.2 demonstrates the factors and member months used in the calculation of the average age rating factor. The age factor for each age band is the simple average of the factors in that band. The rounded weighted average age corresponding to this age calibration factor is 49 years.

Appendix 13.1 of the Actuarial Memorandum demonstrates the calibration of the Plan Adjusted Index Rate for age. The distribution of members by age is in Appendix 1.2 and the corresponding age factors are included in Appendix 1.3.

**Geographic Factor Calibration:**
The geographic rating factors are displayed in Appendix 1.3. Appendix 13.3 demonstrates the factors and member months used in the calculation of the average geographic rating factor. In order to determine the calibration factor for geography, the projected distribution of members by area was determined. Next, the weighted average of the area factors was calculated utilizing this distribution.

The 2026 geographic factors were developed to reflect provider reimbursement and practice pattern differences by area. The reimbursement reflected in the geographic factors is based on provider contracts by rating area. The practice patterns reflected in the geographic factors are consistent with our experience where applicable and supplemented by Health Cost Guidelines research. Projected risk pool morbidity and age/gender factors were set at statewide levels during 2026 geographic factor development. The area factors used are reflective of differences in delivery costs (including unit cost and provider practice pattern differences) only and do not reflect differences in population morbidity.

**Tobacco Use Rating Factor Calibration:**
The tobacco use calibration factor is applied in Appendix 13.1. The tobacco use calibration factor removes the portion of the cost expected to be recouped through the tobacco surcharge. This factor is calculated by weighting the tobacco factors with the single risk pool membership distribution of tobacco and non-tobacco users. The tobacco factors are included in Appendix 1.3. Appendix 13.4 demonstrates the factors and member months used in the calculation of the average tobacco rating factor.

**Calibration adjustments are applied uniformly to all plans:**
The calibration adjustment does not vary by plan and this is demonstrated in Appendix 13.1.

Member-level adjustments as described in 45 CFR 147.102 are applied uniformly to all plans in the single risk pool, and these adjustments do not vary by plan.

In Appendix 13.1, the Plan Adjusted Index Rate is calibrated for age, tobacco, and geography to determine the Calibrated Plan Adjusted Index Rate. The Calibrated Plan Adjusted Index Rate can then be converted to the Base Rate by dividing by the average plan factor. Multiplying the Base Rate by the plan, age, tobacco, and area factors produces the Consumer Adjusted Premium Rate. The distribution of members by rating area is included in Appendix 1.2. Furthermore, Appendix 1.4 provides a sample calculation of premium rates.

## 14. Consumer Adjusted Premium Rate Development

Each Plan Adjusted Index Rate is divided by the overall calibration factor to determine the Calibrated Plan Adjusted Index Rate.

The following allowable rating factors, as specified by 45 CFR Part 147.102, are applied to the Calibrated Plan Adjusted Index Rate to determine the rate that is charged to the health insurance subscriber:

- Rating Area
  - The area factors are listed in Appendix 1.3. The methodology for developing geographic factors is included in Section 13, "Calibration".
- Age
  - The prescribed standard age factors were used.
- Tobacco Status
  - The tobacco factor for 2026 is set to 1.150 for all ages 21+. In lieu of credible data, the factor was selected from a reasonable range of cost impacts based on tobacco cost literature. Specifically, the report "The Business Case for Coverage of Tobacco Cessation, 2012 Update" by Leif Associates, Inc. was considered which suggests that healthcare costs for smokers are greater than those of nonsmokers and may be as much as 34% higher than costs for non-smokers.
- For family coverage, rates for children are charged to no more than the three oldest covered children under age 21.

Appendix 1.3 lists the allowable rating factors and Appendix 1.4 contains an example walking through the calculation of a theoretical family's rates.

## 15. Projected Loss Ratio

The projected medical loss ratio (MLR) for Ambetter Health in 2026 in Pennsylvania is 85.4%, which satisfies the state of Pennsylvania's minimum MLR requirement of 80%. This projected MLR is calculated according to 45 CFR 158. The projected MLR is the projected 2026 calendar year single risk pool experience rather than the three-year period used for determining rebates. No credibility adjustment based on projected enrollment and average deductible was estimated. See Appendix 15.1 for the detail underlying the calculation.

## 16. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I URRT were calculated using the Final 2026 Federal AV Calculator for the plan provisions that fit within the calculator parameters and making appropriate adjustments to the AV identified by the calculator for plan design features that are not compatible with the parameters of the AV Calculator. Consistent with CMS' Marketplace Integrity and Affordability rule, the plan designs in this filing have been developed in compliance with these proposed expanded AV parameters.

This filing includes plans with two generic drug tiers (preferred generic and non-preferred generic), but the AV Calculator only has one input for generic drug cost sharing. For plans where the cost sharing differs between the two generic drug tiers, we have entered a blended generic drug cost share as the generic drug input into the AV Calculator, consistent with accepted actuarial practices and pursuant to 45 CFR 156.135(b)(2).

## 17. Membership Projections

Ambetter Health developed its membership projections based on 2025 QHP open enrollment data, adjusting for expected enrollment changes through 2026. The expected enrollment changes are based on historical shifts in membership combined with market-specific adjustments.

Silver plan membership projections are broken out separately for each cost-sharing reduction subsidy variant. This was performed in a similar manner to the aggregate membership projections.

The details of the projected membership by subsidy level are shown in Appendix 17.1.

## 18. Terminated Plans and Products

A list of the plans being terminated and the plans to which these are being mapped is included in the appendices as Appendix 18.1.

## 19. Plan Type

The plan types listed in Worksheet 2, Section I of the Part I URRT describe Ambetter Health's plans exactly.

## 20. Effective Rate Review Information

See Appendix 20.1 for documents summarizing the capital and surplus position of PHW.

The following Pennsylvania state-specific requirements have been included elsewhere in this filing package:

- 2026_Ambetter_Health_PA_Actuarial_Memorandum_20250515.pdf
- 2026_Ambetter_Health_PA_Actuarial_Memorandum_Rate_Exhibits_20250515.xlsm

## 21. Reliance

See Appendix 21.1 for a detailed listing of items received and relied upon for rate development.

## 22. Actuarial Certification

I, [redacted], am a member of the American Academy of Actuaries in good standing and meet its qualification standards for actuaries issuing statements of actuarial opinion in the United States promulgated by the American Academy of Actuaries, and have the education and experience necessary to perform the work. I certify the rates were developed in accordance with the appropriate Actuarial Standards of Practice (ASOPs) and the profession's Code of Professional Conduct. While other ASOPs apply, particular emphasis was placed on the following:

- ASOP No. 5, Incurred Health and Disability Claims
- ASOP No. 8, Regulatory Filings for Health Benefits, Accident and Health Insurance, and Entities Providing Health Benefits
- ASOP No. 12, Risk Classification
- ASOP No. 23, Data Quality
- ASOP No. 25, Credibility Procedures
- ASOP No. 26, Compliance with Statutory and Regulatory Requirements for the Actuarial Certification of Small Employer Health Benefit Plans
- ASOP No. 41, Actuarial Communications
- ASOP No. 42, Health and Disability Actuarial Assets and Liabilities Other Than Liabilities for Incurred Claims
- ASOP No. 45, The Use of Health Status Based Risk Adjustment Methodologies
- ASOP No. 50, Determining minimum value and Actuarial Value under the Affordable Care Act
- ASOP No. 56, Modeling

I certify that to the best of my knowledge and judgement:

1. The Index Rate for the Projection Period is:
   (a) In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102);
   (b) Developed in compliance with the applicable Actuarial Standards of Practice;
   (c) Reasonable in relation to the benefits provided and the population anticipated to be covered;
   (d) Neither excessive nor deficient based on my best estimate of the 2026 individual market
2. The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan-level rates.
3. The geographic rating factors reflect only difference in the cost of delivery and do not include differences for population morbidity by geographic area.

4. The CMS Actuarial Value Calculator, with appropriate adjustments, was used to determine the AV Metal Values shown in Worksheet 2, Section I of the URRT for all plans. This rate filing was prepared in compliance with all applicable state and federal statutes and regulations.

   Regarding Pennsylvania state certification requirements, I certify that to the best of my knowledge and judgment:

5. All factor, benefit and other changes from the prior approved filing have been disclosed in the actuarial memorandum.

6. No new plans are modifications of existing plans as described in the uniform modification standards in 45 C.F.R. §147.106.

7. The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2026 Rate Filing Justification.

The URRT does not demonstrate the process used to develop proposed premium rates. It is representative of information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

The 2026 plan year premium rates in this actuarial memorandum are contingent upon the status of the ACA statutes and regulations including any regulatory guidance, such as CMS' Marketplace Integrity and Affordability Rule, court decisions, or otherwise. Changes have the potential to greatly impact the 2026 plan year premium rates provided in this Actuarial Memorandum and the alignment of these premium rates with incurred costs. Changes include, but are not limited to, any legislative or regulatory amendment, court decision, or a decision by Congress, the Health and Human Services Secretary or the Centers for Medicare and Medicaid Services director to adjust funding of CSR subsidies or advance premium tax credits. In the event that a material provision is enacted renewing eAPTCs at current or partially funded levels, a revision to the rates will be needed.

The information provided in this actuarial memorandum is in support of the items illustrated in the URRT and does not provide an actuarial opinion regarding the process used to develop proposed premium rates. It does certify that rates were developed in accordance with applicable regulations, as noted.

Differences between the projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in this analysis. Actual amounts will differ from projected amounts to the extent that actual experience deviates from expected experience.

| **Member** | **Age** | **Smoking Status** | **Rating Area** | **Base** | **Prod. Adj.** | **Plan Rate Factor** | **(Base + Prod. Adj.) * Plan Factor** | **Age Factor** | **Tobacco** | **Area** | **Final Premium** |
| Subscriber | 40 | Non-Smoker | Rating Area 1 | $442.69 | $0.00 | 0.8345 | $369.42 | 1.278 | 1.000 | 0.9794 | $462.40 |
| Spouse | 38 | Non-Smoker | Rating Area 1 | $442.69 | $0.00 | 0.8345 | $369.42 | 1.246 | 1.000 | 0.9794 | $450.82 |
| Child 1 | 18 | Non-Smoker | Rating Area 1 | $442.69 | $0.00 | 0.8345 | $369.42 | 0.913 | 1.000 | 0.9794 | $330.33 |
| Child 2 | 16 | Non-Smoker | Rating Area 1 | $442.69 | $0.00 | 0.8345 | $369.42 | 0.859 | 1.000 | 0.9794 | $310.80 |
| Child 3 | 14 | Non-Smoker | Rating Area 1 | $442.69 | $0.00 | 0.8345 | $369.42 | 0.765 | 1.000 | 0.9794 | $276.79 |
| Child 4 | 11 | Non-Smoker | Rating Area 1 | $442.69 | $0.00 | 0.8345 | $369.42 | 0.000 | 1.000 | 0.9794 | $0.00 |
| **Total** | | | | | | | | | | | **$1,831.14** |

Steps to Calculate Final Premium:

(1) Look up the plan's Base Rate factor (a) and Product Adjustment factor (b). Add together.

(2) Look up the Plan Rate factor based on the plan design (c).

(3) Multiply the sum of (a) and (b) by the Plan Rate factor as shown in column (d).

(4) Look up the age factors for each member based on age (e).

Note that premiums can only be charged for the oldest 3 children under age 21, so the age factor for all subsequent children will be 0.

(5) Look up the tobacco factor for each member according to smoking status and age (f).

(6) Look up the area factor based on the rating area (g).

(7) Multiply column (d) by the age, tobacco and area factors for each member individually.

(8) Sum the results from (7) for the final premium for the family.

**Appendix 1.5**
**Ambetter Health**
**Estimated Differences Between eAPTC Renewal versus eAPTC Expiration Rate Drivers**

| | Rate Impact by Category | | |
|---|---|---|---|
| **Factor** | **eAPTC Expiration** | **eAPTC Renewal** | **Approximate Impact** |
| Unit Cost Trend | 7.6% | 7.6% | 0.0% |
| Utilization Trend | 1.7% | 1.7% | 0.0% |
| Experience Development, Morbidity, and Risk Adjustment | 16.9% | 10.6% | 6.3% |
| Non-Benefit Expenses | 1.7% | 0.5% | 1.2% |

**Appendix 4.1**
**Ambetter Health**
**Experience Period Claims**

| | Allowed | Incurred (Paid) Claims |
|---|---|---|
| **Claim System** | $164,052,492 | $136,022,845 |
| **Outside**[(1)] | $1,842,409 | $1,469,833 |
| **IBNP** | $1,168,921 | $932,540 |
| **Less Reinsurance** | | ($5,145,384) |
| **Total**[(2)] | $167,063,822 | $133,279,834 |

(1) The claims processed outside of the issuer's claims system are for capitated services.
(2) Total claims are calculated using unrounded numbers.
*Incurred claims shown in Worksheet 1 of the URRT is net of 1332 PA state reinsurance.

**Annualized PMPM Trend[4]**

| Benefit Category | 2026 URRT Annual PMPM Trend Factor | 2025 URRT Worksheet 1 - Nationwide Individual Market | | |
|---|---|---|---|---|
| | | Median | 20th Percentile | 80th Percentile |
| Prescription Drug | 1.127 | 1.088 | 1.067 | 1.123 |

(1) Reflects annualized Utilization trends from Worksheet 1, Section II from 2025 URRTs. Based on public use files released by CCIIO, filtered on all 2025 Individual Market URRTs with non-zero credibility and non-zero trend factors. Note, PMPM trends are provided for prescription drugs, see footnote (4).

(2) The Ambetter nationwide trend study analyzed changes over time in normalized medical allowed claims PMPM for Ambetter individual marketplace products offered across the United States. In order to isolate secular forces of utilization trend, the study first normalized claims costs for differences in population characteristics (age/sex, morbidity), benefit design (induced demand), renewal status, and network characteristics (e.g. unit cost and provider practice patterns) by area and over time.

(3) Ambetter Health capitation costs are based on actual and expected contracts in 2026, and do not require any trend adjustment.

(4) Due to differences in how sources allocate intensity/mix change between utilization and unit cost trend, prescription drug trends are best compared at the PMPM level, instead of separately for utilization and unit cost.

**Appendix 7.1**

| Silver Single Risk Pool Gross Premium Avg. Rate, PMPM | 220,282 | $618.56 | $642.64 | +17.5% | $727.04 |
| Non-Silver Single Risk Pool Gross Premium Avg. Rate, PMPM | 309,764 | $647.75 | $647.75 | 0.0% | $647.75 |

Notes:

*(1) The difference in projected claims across scenarios A and B is attributable to grace period / delinquency margins, which are included in claims but calculated as a percentage of premium.*

– *Appendix 12.5 shows the development of a CSR load applied within our plan factors, absent of a mandated load, assuming CSRs are unfunded. The removal of the CSR load from this exhibit does not represent a comprehensive impact to all premiums, those within the Silver metallic tier and otherwise, should CSRs become funded. Such a scenario would include broader, potentially material changes to our assumptions and the resulting premiums to account for expected market contraction or expansion and movements in the anticipated statewide risk pool.*

**Ambetter Health**
**Projected MLR Table**

| | | |
|---|---|---|
| a) | Incurred Claims, Quality Initiatives, Provider Incentives | $451.07 |
| b) | Quality Improvement Expense & Provider Incentive Payments | $5.50 |
| c) | Risk Adjustment Transfer | $106.15 |
| d) | Projected Claims for MLR (a+b+c) | $562.72 |
| e) | Administrative Expenses | $82.56 |
| f) | Post-Tax Profit and Contribution to Surplus | $13.70 |
| g) | Taxes and Fees | $20.95 |
| h) | Federal Income Tax | $3.94 |
| i) | State Income Tax | $1.11 |
| j) | Premium (d+e+f+g+h+i) | $684.98 |
| k) | Medical Loss Ratio (d/(j-g-h-i)) | 85.4% |
| l) | URRT Worksheet 2 Loss Ratio Calculation | 77.9% |

This projected MLR is calculated according to 45 CFR 158. The projected MLR is the projected 2026 calendar year single risk pool experience rather than the three-year period used for determining rebates. No credibility adjustment based on projected enrollment and average deductible was estimated.
